NO. 118.

MAYOR MAKES AN APOLOGY

WAS MISINFORMED ABOUT SANITARIUM

Conference Between City Council and Deputation from Anti-Tuberculosis Society

Apologizing if any statement he had made in the matter could be construed as an unwarranted insinuation, but reiterating his conviction that the evidence he had in his possession justified him in his effort to clear up a suspicion, Mayor Morley at last evening's conference between the city council and deputation from the Anti-Tuberculosis Society thus terminated a debate on the question of the management of the sanatorium at Tranquille which at times developed some sensational phases.

The deputation was introduced by A. C. Flinnerfelt, president of the Anti-Tuberculosis Association of British Columbia. He said he was not familiar with all the reasons which had led up to the occasion for the conference but he understood that it was certain remarks which had fallen from the lips of the mayor a few weeks ago to which exception had been taken. He wished first of all to assure the board that if any defects existed in the system followed in the management of the affairs of the organization the officers of that institution would be very glad to have the same pointed out so that they might be remedied but if adverse statements had been founded on rumors which could not be substantiated such statements ought to be refuted. Dr. Fagan, secretary of the association, was present and he would call on him to make a statement as to financial conditions.

Dr. Fagan reminded the board that

sanatorium has treated thirty-three patients from Victoria since the institution was opened in 1907, and these now cost on an average about \$2 per day. During the first year the cost was slightly higher. Whether this is too high a cost he could not say, but it is the least the association could do this work for at present. The Jubilee hospital had to pay at a rate of \$1.86 per patient. The patients at the sanatorium are given five meals a day and that costs something. The entire cost of attending the patients has been \$12,578. The patients have paid \$6,242. Of the thirty-three patients, five paid the full rate of \$14 per week, eight paid nothing at all, and the balance paid amounts ranging from \$2 to \$10 per week. In fact over fifty per cent. of the patients are being treated free. The association always endeavors to secure the money for treatment, but in the great majority of cases it is impossible to get it. Victoria had been generous; the council two years ago passed an appropriation of \$2,500, but all the association got was \$1,500 and in addition, \$1,000 a year for the past three years.

Dr. Fagan believed the association has done and is doing a great work. He submitted photographs of the buildings at Tranquille, accounts, reports, etc., which he asked the members of the council to examine. The institution was not taking all the patients it could, because the money promised had not all been forthcoming. If that money had been contributed there would not have been a patient refused.

But the mayor had said results were not satisfactory, continued Dr. Fagan. Anyone who understands what the organization was working for would not make a statement like that. It was not the aim of the Anti-Tuberculosis Association to prepare an attractive financial statement but to accomplish real results in handling the dread disease of consumption. The great object was to seek out patients suffering from the disease, move them away from their surroundings and give them a fighting chance to recover. In many instances the cases discovered were so advanced that there was no chance for a cure, but that was really a small matter compared with the end in view, which was to lift them from their surroundings, take them away from the family circle and thus remove the dan-

WAS BLUNDER ON CAUSEWAY

CITY ELECTRICIAN SPRINGS SURPRISE

No Conduits Laid for Wires to Wall Lamps—An Exorbitant Bill

M. Hutchinson, superintendent of the city's lighting plant, sprung a surprise on the members of the streets committee at their meeting last evening, when he announced that he had only recently made the discovery that when the causeway was paved his plan for conduits for the wires to the rows of ornamental lights on the walls had not been included, and that therefore, some new scheme would have to be devised for the laying of the necessary wires.

Mr. Hutchinson's report on the matter of the lighting of the walls followed a protest by Ald. Sargison a week ago in which the latter said things were in a disgraceful condition. Mr. Hutchinson did not make his report more agreeable by adding that when the matter had been referred to him the other day he had given an order to a local firm of electricians to fix the lights and that they had rendered a bill for \$365—"the most exorbitant charge that I have ever come across in my long experience with city work," he said.

Mr. Hutchinson explained also that although this big charge had been made the lights are not all in order now. There are only six lights burning and these may give out at any time.

It was decided to refer the bill of charges to the city solicitor for report, and Mr. Hutchinson was in-

provement when the by-law is introduced.

Mayor Morley said this afforded him an opportunity of making an explanation of his position in the matter. It had been instructed that he had had the new rule framed and had later profited under it by having Montrose avenue, where he owned property, improved. The fact of the matter was that Montrose avenue was impassable and that it had not been at his direct suggestion that the resolution to allow of some work being done was passed. But to set at rest all doubts as to his position in the matter he proposed to pay the city for his share of the work which had been done on Montrose avenue and would hand the city engineer a cheque just as soon as the amount was computed. He was not desirous of profiting from the public work to the extent of one penny.

Ald. Mable said that was all right, but what he objected to was the principle of the new rule and he moved that the resolution be rescinded. This was seconded and carried unanimously.

ELECTIONS EARLY IN DECEMBER

WILL BE OVER WEEK BEFORE CHRISTMAS.

Asquith Says Liberals Do Not Intend to Set Up Single Chamber

(Special to the Times.)

London, Nov. 19.—Speaking at the National Liberal Club luncheon to-day Premier Asquith said the borough elections would be over by December 8 and the counties by the week before Christmas.

In the course of his speech he said that their efforts at the veto conference being unavailing they had to put aside methods of compromise and declare war. The Liberal party was stronger in the Commons than eleven months ago, and the Tories could not face another election optimistically with the incubus of the Lords on their backs.

The government was faced by an alternative policy to their own in Lord Rosebery's resolution, but some details of that were lacking. The principal on which the government took its stand was that in a democratic country the representatives of the people ought to have a controlling voice in its policy and shaping of its law. They did not intend to set up a single chamber; they proposed so changing the relations of the two chambers as would confine the second chamber to those functions admittedly appropriate to it, and would ensure a fair and even working of the two chambers, whichever party was in power.

CREW OF THE WOLVERINE SAFE

STEAMER AGROUND AT SWAMP HARBOR

Party Reaches Selkirk After a Hard Trip—Accident to the Rocket

(Special to the Times.)

Selkirk, Man., Nov. 19.—Part of the crew of the missing steamer Wolverine arrived here this morning after severe experience and a very hard trip out from Swamp Harbor where the boat grounded. She broke a wheel entering the harbor and is now lying partially submerged.

Engineer John Seaman came in with the party and the fish company is organizing a relief party to bring out the rest of the crew.

The accident occurred November 3. Along with the Wolverine party, part of the crew of the Mikado, which is grounded near Swamp came in. No lives were lost.

The crew of the Rocket, which was stove in on Lake Winnipeg, arrived here safely yesterday after a hard trip out.

DYNAMITE OUTRAGE.

Anneton, Ala., Nov. 19.—A warrant for the arrest of J. P. Adair, a printer, was issued to-day following the dynamiting of the composing room of the Anneton Blast, a daily paper. The room and its equipment were destroyed. Adair recently was discharged from the Blast.

FATAL FIGHT AT ROAD HOUSE

TWO MEN KILLED SEVERAL WOUNDED

Battle Believed to Have Been Over Girl Alleged to Be Held Prisoner

(Times Leased Wire.)

Mount Kisco, N. Y., Nov. 19.—Two men are dead and several wounded as the result of a pitched battle between two parties of armed men at Merritt's roadhouse near here, early to-day. The fight is supposed to have started over a girl, whose brother believed she was held prisoner in the roadhouse and who demanded her release.

Ten dead were removed to the local morgue to await identification. The wounded men are being cared for by friends, and every effort is being made to hide their identity.

The man who, it is said, led an attacking force on the resort when his sister was not turned over to him, is F. Brower, of Chappaqua. Brower is missing since the fight.

Brower is said to have learned of his sister's plight Wednesday night when he visited the roadhouse. Habitués of the place ejected him, it is said, when he demanded that she go home with him.

With the threat to return and "hurt somebody," Brower left the place, according to information learned by the authorities to-day. Fearing that he would make good his threat, the cabin was barricaded. The attacking party arrived early to-day and opened fire on the roadhouse.

The shots were returned from within and the fight continued until the sheriff and his deputies arrived, when

COUNT TOLSTOI Oxygen Now Being Used in Effort to Prolong Life.

St. Petersburg, Nov. 19.—Czar Nicholas and the Procurator of the Holy Synod of the Greek church were in consultation to-day over the question of withdrawing the edict of excommunication issued against Count Leo Tolstoy, without awaiting the consent of the noted Russian author, who is near death. The condition of Tolstoy was such that no effort was made to broach to him the subject of reconciliation with the Greek church. Tolstoy's physicians have kept in constant communication with the palace, and their last message was that the count's death is only a matter of hours. His heart action is at the lowest point and he becomes unconscious frequently. Oxygen is being used in an effort to prolong life.

FIRE FOLLOWS EXPLOSION.

Rosethorn, Sask., Nov. 18.—The plant of Le Patriote, a newly established newspaper at Duck Lake, was totally destroyed by fire last night. The fire was caused by the explosion of the tank of a gasoline engine. Charles Smith, who lived in the building, is so badly burned that it is feared he cannot recover. Smith was rescued by F. B. Morse, editor of the paper. Smith's two children and another girl were also severely burned. The library of F. R. Lobachir, valued at \$5,000, was totally destroyed. The newspaper plant was valued at \$3,000, and the building at \$15,000. The insurance on the plant and building amounts to \$2,500.

CHOLERA SUSPECT.

(Special to the Times.)

Montreal, Nov. 19.—Dr. Adamie, of McGill, states after examination of the spouts, etc., from the cholera suspect on board the steamer Royal George, held at Quebec, that cause for alarm undoubtedly exists.

DEATH OF PIONEER.

Winnipeg, Nov. 19.—Wm. Tolson, one of the pioneer farmers of Brandon district, is dead, aged 66. He homesteaded here thirty years ago, coming from Carleton county.

PLANS TO TAKE MEXICO CITY.

GIGANTIC CONSPIRACY HAS BEEN UNEARTHED

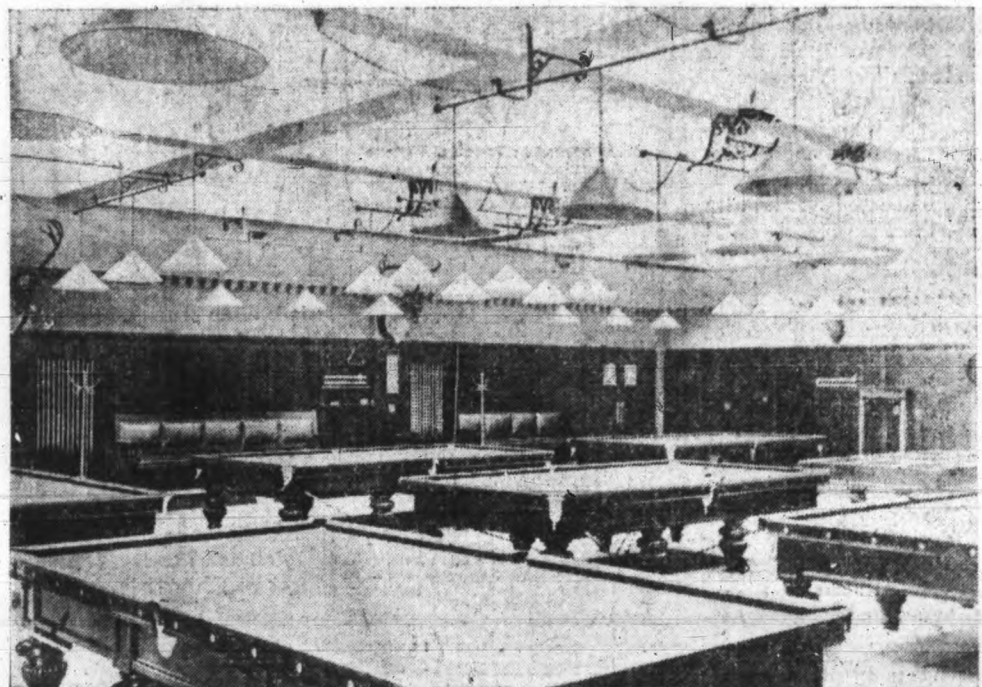

Revolutionists About to Start Expeditions to Invade Mexico

(Times Leased Wire.)

Washington, D. C., Nov. 19.—Knowledge of a gigantic conspiracy to start a revolution in Mexico is causing the state department a great deal of worry to-day. From authoritative sources it was learned that evidence of the plot had been discovered in all four of the border states, and so far had the plans progressed that the revolutionists were about to start expeditions to invade Mexico and attempt to capture Mexico City.

Revolutionary leaders in California, New Mexico, Arizona and Texas are under surveillance by secret service men, who have orders to prevent a mobilization of forces on United States soil at any cost.

"The United States is determined to prevent any invasion of neutrality laws," one official declared to-day. "Anti-government forces in Mexico have been working secretly for a long time to overthrow President Diaz, and their plan is to gather their forces on this side of the border, then march across into Mexico and proceed to Mexico City. Reports of the purchasing of large quantities of ammunition and firearms which have been secreted along the border are in the possession of the authorities, and the identity of the purchasers is known. The United States stands ready to arrest the conspirators as soon as the neutrality treaty is violated by the assembling of forces, but until then will content it-

Billiard Room in Pacific Club—Finest on the Coast.

while they were now invited to confer with the board at a committee meeting, the original insinuations had been made at an open meeting of the council and thus given a wide circulation which had been damaging to the association. Nothing was so harmful as insinuations, as there was no way of meeting them. But he was now of the opinion that the board of management of the sanatorium was acting in any way in which it ought not to act; if so they would endeavor to remedy the difficulty.

"I confess I am very hot about the matter," said Dr. Fagan. "This is not the first time but the second time that the same mayor has seen fit to cast a slur upon the organization. When Mayor Morley had been invited to attend the annual meeting, instead of going so and satisfying himself as to the manner in which its affairs were being conducted he chose to cast out unwarranted insinuations. It would not be so bad if these statements came from Mr. Morley, as Mr. Morley, but when they are made by the chief magistrate of the capital city of this province they cannot but have a very damaging effect."

Dr. Fagan then read a press report of the proceedings of the council at the time that Mayor Morley made the statements complained of, and continued: "The mayor made these damaging insinuations notwithstanding the fact that the head office of the organization he chooses to assail is situated not a quarter of a mile for the room in which he was speaking, where he could have ascertained that there was no foundation whatever for his statements."

Dr. Fagan pointed out that the san-

ger of infection to others. Such patients, if they ever left Tranquille, were sent away with a full scientific (Concluded on page 2.)

AMERICAN SAILOR STABBED TO DEATH

London Newspapers Blame the French Bluejackets for the Riots at Cherbourg

(Times Leased Wire.)

London, Nov. 19.—That the American sailor whose body was found yesterday in the inner harbor at Cherbourg, France, had been stabbed and robbed, and that American sailors were maltreated by French soldiers, were the charges made to-day by London newspapers following the receipt of dispatches from France describing riots at Cherbourg yesterday. The newspapers defend the American sailors in their fight with the French bluejackets, and refer specifically to French attempts to place the blame on the Americans.

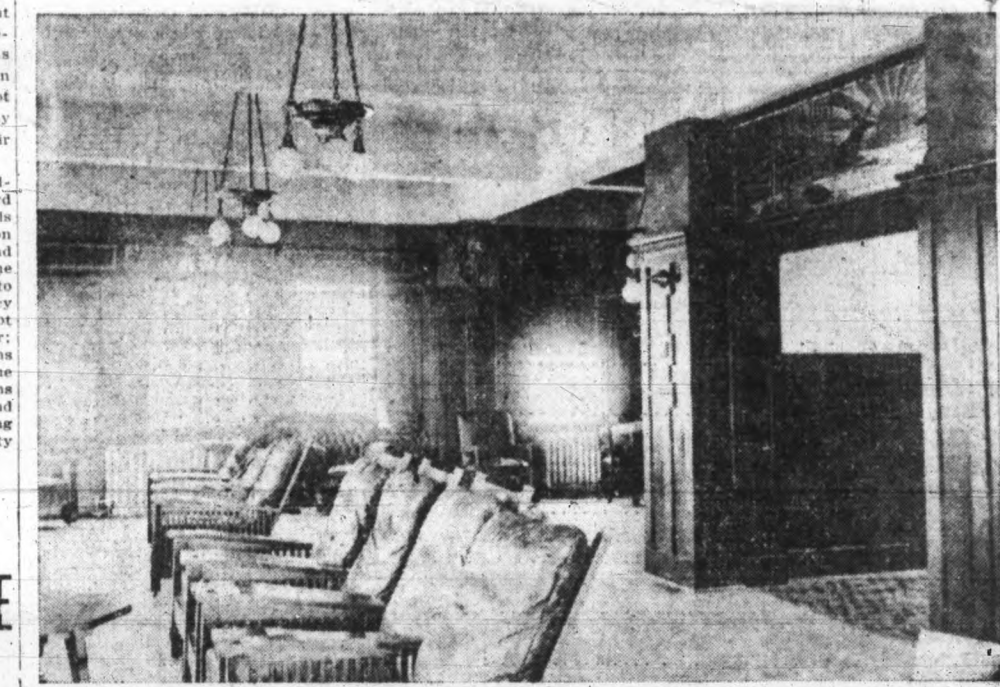

It is asserted that the sailors of the American squadron were attacked by the French artillerymen and property belonging to four seamen was found in the possession of a number of artillerymen.

structed to devise ways and means to put the whole of the lights in order. After hearing an explanation from Thos. Preece, superintendent of waterworks, it was decided to adopt the report of the engineer and the water commissioner in the matter of awarding the contract for valves, and the order will accordingly be placed with the Crane company of Chicago.

Deputations of property owners on Pendergast and Cross streets lodged a protest against the amount of their assessments for the work of local improvements. It was decided to get special reports as to both streets from the city engineer. The water commissioner and the city engineer submitted a report as to the cost of the proposed extension of the water service to supply the University school near Mount Tolmie. As Ald. Bannerman, to whom the matter had also been referred, had not yet concluded with the manager of the institution, no final decision was reached in the matter pending this interview.

Mayor Morley brought up the question of getting rid of the nuisance at Skinner Flats, and in this connection made the suggestion that as some fifteen lots in the flats could be purchased for \$2,000 it might be well to buy them and fill them up, and thus get rid of the water. A committee, consisting of Ald. Bannerman, Ross and Mable and the engineer was named to look into the matter.

J. Sablin wrote asking that Edmonton road, between Haultain street and Mount Tolmie, be improved under the new rule which enabled the council to do certain work and have the same charged against the work of local im-

One of the Lounging Rooms in Pacific Club's New Quarters.

the attackers fled. One of the slain men is supposed to have been a defender of the roadhouse and the other one of the attacking party.

Proprietor Merritt, of the roadhouse, four men and two women habitués of the place, are held pending the action of the coroner at the inquest over the bodies of the slain men. The Brower girl has disappeared, and efforts to locate her were fruitless.

YALE AND HARVARD DRAW.

New Haven, Conn., Nov. 19.—Fighting desperately to the end, football heroes of Yale, unable to end against Harvard, succeeded in holding the crimson warriors to a nothing to nothing score this afternoon on the most spectacular game of the year on an eastern gridiron.

With weight, odds and expert judgment against them the sons of Old Eli kept the ball off the ground and in the air and the terrific line smashes of the Harvard backs went for naught under the hunting of the Yale kickers. Yale's showing was better than the most sanguine of her supporters hoped for.

The victory complicates the judgment of eastern critics in selecting the best team of the year and places Brown University, which defeated Yale, near the head of the column.

GROWTH OF TRADE.

(Special to the Times.)

Ottawa, Nov. 17.—The trade of Canada for the first seven months of the year was valued at \$1,000,000,000, or 19 per cent. increase of \$85,000,000, or 19 per cent. compared with last year.

CHOLERA SPREADS.

St. Petersburg, Nov. 19.—The whole of Manchuria has been officially declared infected with cholera.

GUN EXPLOSION KILLS FOUR MEN

Fatal Accident at U. S. Prov- ing Ground on the Poto- mac River

(Times Leased Wire.)

Washington, D. C., Nov. 19.—Four men were killed to-day in an explosion of a five-inch gun at the proving grounds at Indian Head, on the Potomac river, according to a message received by the navy department this afternoon.

The dead: Lieut. A. G. Chaffee, Battery Foreman J. L. Brown, Ordnance Man L. L. O'Leary, Battery Attendant Nelson Jackson (colored).

The explosion was caused by the blowing out of a breach lock. The accident occurred when the sunners were closing the breech. A premature explosion blew the breech plug to the rear of the gun. Brown was killed instantly. O'Leary lived ten minutes, and Chaffee and Jackson an hour. A board of inquiry is investigating the accident.

self with keeping a close watch on the leaders."

While Texas ostensibly is the hotbed of the revolution, from an authoritative source it was learned to-day that some of New Mexico and Arizona are equally populated with revolutionists. At a signal from their leaders, it is said, 1,000 men from the United States side and at least ten times that many from towns in Northern Mexico are ready to take the field and equipment for twice that number is in possession of the revolutionists.

All talk of trouble between armed Mexicans and Americans in Texas is foolish, and is being started with a purpose, according to another official with-up on Mexican affairs. The "war talk" is believed to be a blind behind which the revolutionists are working, and a dodge to stir up American sympathy after the fight is started. It is said that at least a tenth of the revolutionary army will be American cowboys and ranchmen in the event that a revolution actually is launched.

(Concluded on page 7.)

CRIPPEN PETITION.

(Special to the Times.)

London, Nov. 18.—"As the whole of the signatures," says the covering letter accompanying the Crispin petition, which Newton & Co. presented to-day to the home secretary, have been obtained spontaneously, and in no way by canvassing or anything of that kind, we venture to think that a very large number of the serious thinking people have a very strong feeling that whatever suspicion this case may offer, the certainty of guilt has not been proved against our client."

The last issue of the Canada Gazette contains official notification of the appointment of Lieut. Hugh Ronald Selie as district signaller for M. D. No. 11, transferred from the Fifth Regiment, C. G. A.

Invitations have been issued by Seghers Council, No. 88, Y. M. C. A. for a social to be given on Monday, November 21, at the Institute hall, View street. As this will be the last social to be held this year it is

expected that there will be a large attendance.

Commencing to-morrow morning at 7.30 a series of evangelistic meetings will be held in Victoria hall, Blanchard street, near Pandora avenue. These meetings are non-denominational. The speaker, R. O. Benson, has been a most successful evangelist in England, Ireland and Scotland, as well as in America.

MAYOR MAKES AN APOLOGY

(Continued from page 1.)

knowledge of how to cease spreading disease. The mayor would apparently be better pleased if they turned these advanced cases away, if they could only make a better financial showing. In this connection the speaker related that while the council had promised the sum of \$2,500 towards the building fund, it had only handed over \$1,500. He would add, however, that the city gave an annual grant of \$1,000 and this had been paid for the past three years.

Ald. McKeown, as chairman of the finance committee, explained that he made inquiries about the grant of \$2,500, of which Dr. Fagan had mentioned, and he found that there was no record of such grant on the books at the city hall.

Dr. Fagan agreed that this was so, as he had looked into the matter himself, with Mr. Raynor, the comptroller.

Dr. Fagan said, in reply to a question, that they were not taking all the patients offering as they had not received sufficient funds to complete the building.

Mayor Morley commenced by saying that while the press report of his remarks was in the main correct, the omission of the word "business" from the text had given a different meaning than that he had intended to convey when he spoke of the affairs of the sanitarium not being run satisfactorily. His worship said he would challenge Rev. Mr. Clay to say whether he (Mr. Clay) had not expressed openly dissatisfaction with the manner in which the business of the organization was being conducted, whether he was not one of the strong movers in an agitation to get matters straightened out.

Mr. Clay—I have not the faintest recollection of ever having said anything of the kind.

Mayor Morley—Well, I can only say, Mr. Clay, that there are some pretty strong lars in Victoria then. I had it direct from the association, that the members were dissatisfied, that you were one of them and that you went up to Tranquille to make an investigation to satisfy yourself and—

Mr. Clay—That is an absolute falsehood. It is true that I went up to Tranquille, but I went in the ordinary way as a member of a party invited to look over the institution. Mr. Barton and Mr. Dallaire accompanied me. As to my taking the initiative in trying to effect better arrangements or any improved system, that is not the case.

Mayor Morley—Did you ever express disapproval at the manner in which the sanitarium was being conducted?

Mr. Clay—No. As a member of the board of directors at meetings of the board I may have offered some advice as it is customary as at all board meetings.

Mayor Morley—That is not the point. Did you at any time say you were dissatisfied and wished for reform?

Mr. Clay—No. Ald. Sargison—Well, Mr. Chairman, I think it would have been more becoming if the mayor had had an interview of this sort with Mr. Clay before he made the insinuations which he did.

Mayor Morley—That is all right, Ald. Sargison. Just wait till I get through. I haven't finished yet. I have been charged with making insinuations and I have the right to seek information in this way.

Mr. Clay—It is quite possible that at these board meetings, as I have told you, that I would criticize certain methods which were being followed, but—

Dr. Fagan explained this point at some length. There had been some trouble over the forty acres, but if the association did not get its title it would get its money back.

Mayor Morley—Is it not true that at the outset you had to have the advanced cases in the same building where the incipient cases were?

Dr. Fagan—Yes, that is true.

Mayor Morley—And did you not get a grant of \$10,000 from the government to complete a building for the advanced cases? What became of that money? Was it not diverted to pay off the general debts of the institution?

Dr. Fagan—That is not so. The \$10,000 went into the general building fund and it is so shown on the books.

Mayor Morley—Well, I had it reported to me that that amount was used to pay off everyday debts. But are not the incipient and advanced cases in the same building right today?

Dr. Fagan—Yes. Mayor Morley—Therefore the money was not used for the purpose for which it was granted.

Dr. Fagan—That is but a small detail of no consequence in the matter under discussion, but I can assure you that the association is not overlooking the requirements of the advanced cases. We have pressed the matter on the attention of the government so persistently, and so successfully that I am now in a position to announce that the government has decided to make a generous grant to handle every advanced case of consumption that may be discovered in the whole province.

Mayor Morley—That is good news, but I'm fully of the opinion that the \$10,000 went to current account when it ought to have been expended for the purposes for which it was granted.

Dr. Fagan—Did you make an inspection of our books to satisfy yourself on that point?

Mayor Morley—No.

Dr. Fagan—The government gave a total grant of \$70,000. The \$10,000 was included in that sum, and it went to the building fund and nothing else.

Mayor Morley—Are not Dr. Irving and Dr. Shaw, officials of the sanitarium, maintaining private hospitals for consumptives at Kamloops?

Dr. Fagan—Yes, they have cottages there and we are glad of it, as it relieves the pressure at Tranquille. We cannot take all the patients in who are offering.

Mayor Morley—Did you not pay Dr. Irving sufficient salary? And is it not true that he spent two days a week away from the institution looking after his private patients?

Dr. Fagan—Yes, and when we discovered this unsatisfactory state of affairs Dr. Irving resigned. The facts of the matter are well known.

Mayor Morley—No, they were not well known, as I only knew it the other day.

Dr. Fagan—Well, what's wrong about it?

Mayor Morley—Oh, perhaps there's nothing wrong about it, but I just want to get at all the facts.

A. S. Barton remarked that complaints about Dr. Shaw absenting himself from the sanitarium were unfounded. In the name of common humanity he had to go to Kamloops when summoned.

Dr. Fagan—Under our new regulations Irving sufficient salary? And is it not true that he spent two days a week away from the institution looking after his private patients?

Mayor Morley—Did not Dr. Shaw have 600 acres when his ranch was taken over and has he not been in charge of the ranch ever since? Is he not supplying the sanitarium with produce? What about the horses? Is it a fact that Dr. Shaw has never rendered a set of accounts of his produce?

Dr. Fagan—Why, we have all the accounts in proper order.

Mayor Morley—I should like to see them. I understand he was never allowed upon to give a full account, although your own ranch is supplying the hospital with produce.

Dr. Fagan—Why, Mr. Mayor, the accounts in proper shape all come in every month. There are absolutely accurate accounts kept for the ranch and sanitarium, and they are coming in all the time. We had some of them before us to-day.

Mayor Morley—Is the new building in full operation?

Dr. Fagan—Yes, it was only opened a month ago. But it is not yet finished, and why? Because the people who have promised us money have failed to pay.

Then followed some discussion of a character which the press representatives were asked not to report.

Ald. Sargison—I think, your worship, if you had gone up to Tranquille you would have saved a lot of trouble and your misapprehension would have been corrected. I consider that you chose to adopt a rather remarkable course, considering your position as mayor of Victoria.

Mayor Morley—Maybe my action was somewhat remarkable. I am rather given to remarkable actions, and this is one of them.

Ald. Bauman protested against the tone of the discussion. Mr. Flumerfelt—Mr. Mayor, we feel that if you had been as interested as we are in the success of the noble work in hand you would have tried to help us remedy any faults which might develop. It is easy to criticize public bodies. I might even come to the city council and point out how our own work might be more properly managed—point out defects in our system.

should bear the expense. He was sorry if he had been misinformed as to the situation, but he still had a conviction that the affairs of the association were not in so satisfactory a condition as they might be.

Mr. Flumerfelt—All we want is fair play. The statement complained of would not have been so had it had come from plain Mr. Morley. It was his duty, if he suspected anything to be wrong, to have come to us and told us about it privately so that we could rectify it.

Mayor Morley—I may say my only object in making the remarks I did was to assist in having misstatements which were going around corrected. (Laughter.) I was simply trying to have these rumors settled.

After thanking the committee for receiving them, the members of the delegation withdrew.

ISLAND RAILWAYS.

To the Editor:—There being no apparent move yet on the part of the Canadian Northern to fulfil its pledges as to the island section of the railway, the question arises should we not ourselves take some action.

At the time of the last provincial election we had the guarantee of the four sitting city members that within three months of the passing of the Subsidy Act actual construction would be in progress or they would resign; but the three months have long expired, actual construction is not in progress and they have not resigned. All we have now is an uncertain line on paper, without any promise, worthless or otherwise, as to when it will be started. "As soon as possible" might be ten years hence.

Is it not time to bring pressure upon Mr. McBride, by public meeting, to run a government line on through the island as a public work? Such a line would open up the country and enable us to settle on it immigrants who, as matters are, have now to go elsewhere.

The Premier, who speaks of doing things for Victoria while in reality doing them for Vancouver at the expense of Victoria, has a chance here of doing something for the island, which hitherto he would appear to have regarded merely as a feeder for Vancouver city.

VICTORIA.

Victoria, B. C., November 17th, 1910.

—IN— VANCOUVER

property owners have petitioned for over Fifty Thousand Yards of Bitulithic and there are several petitions in course of circulation at the present time. Vancouver is recognizing that Bitulithic is the only Non-slippery Pavement and furthermore is the only Pavement which can be laid on a steep grade with success.

Let us send you literature of the very best form of roadway that has ever been built.

THEATRICAL WAR ON IN SEATTLE

**SUIT IS STARTED
AGAINST SHUBERTS**

John Cort Also Defendant in an
Action Brought by Rus-
sell and Drew

(Times Leased Wire.)

Seattle, Wash., Nov. 19.—Declaring that they are out of pocket \$200,000 by reason of the agreement made between John Cort, president of the National Theatre Owners' Association, and the Shubert booking agency, Russell and Drew, owners of the Alhambra Theatre Company, have brought a suit in the Superior court to enjoin the Shuberts from playing their attractions in John Cort's theatre in this city. Russell and Drew seek to prevent the Shubert attractions from appearing elsewhere in Seattle than at the Alhambra theatre and demand \$25,000 damages. They have a ten-year lease on the Alhambra, paying \$1,000 a month rental. At present a stock company occupies the boards.

It is alleged by Russell and Drew that Lee Shubert bought \$5,000 worth of stock in the Alhambra enterprise as a guarantee that his attractions would play at that theatre. Since that time Russell and Drew assert, Shubert and Cort have made a contract whereby Cort gets the stock in the Alhambra company. All Shubert attractions are switched over to play the Moore theatre, controlled by Cort. The suit brought by Russell and Drew is directed against John Cort, Manager J. Shubert, Calvin Heilig, president, and P. Sullivan, vice-president, of the Northwestern Theatrical Association, John Cort personally, and the Sam Shubert booking agency.

COLONIZATION SCHEME.

Nelson, Nov. 19.—At the Conservative convention yesterday the following resolution was adopted:

"Whereas the development of the agricultural industry of the province is not keeping pace with the increase of population and the growth in other industries; and

"Whereas, the permanent prosperity of any country depends upon the cultivation of the soil, and the local production of the necessities of life, and

"Whereas, the present tendency in British Columbia is to flock to the cities, which may in the near future present a serious problem, as affecting the cost of living and the providing of cheap food for the people:

"Be it resolved, that the time has arrived when it is desirable to take some steps to assure the placing of a larger number of permanent settlers upon the land, and the government is requested to take this matter under its serious consideration and to undertake the work of colonization with the people of our own race."

AUSTRALIAN TARIFF.

Melbourne, Nov. 19.—The question of the tariff has been brought to the fore in the commonwealth parliament, but on this occasion in a fashion that is not likely to arouse very violent opposition.

The tariff revision bill introduced by the ministry is directed only at the rectification of administrative anomalies, and makes no alterations in the duties. The government is holding its hand until March next, when the cabinet hopes to have taken the opinion of the country by means of the referendum on the industrial powers of the commonwealth. The referendum bill has already been considered by parliament.

An agitation has been started to double the salaries of the Victorian state members. The movement has not gained much headway, the taxpayers being quite unappreciative so far. It is probable that little more will be heard of it.

ANOTHER WOMAN CURED

By Lydia E. Pinkham's
Vegetable Compound

Gardiner, Maine.—"I have been a great sufferer from organic troubles and a severe female weakness. The doctor said I would have to go to the hospital for an operation, but I could not bear to think of it. I decided to try Lydia E. Pinkham's Vegetable Compound, made exclusively from roots and herbs, a fair trial. This famous medicine for women has for thirty years proved to be the most valuable tonic and renewer of the female organism. Women residing in almost every city and town in the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound. It cures female ills, and creates radiant, buoyant female health. If you are ill, for your own sake as well as for the sake of those you love, give it a trial. Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice. Her advice is free, and always helpful."

No woman should submit to a surgical operation, which may mean death, until she has given Lydia E. Pinkham's Vegetable Compound, made exclusively from roots and herbs, a fair trial. This famous medicine for women has for thirty years proved to be the most valuable tonic and renewer of the female organism. Women residing in almost every city and town in the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound. It cures female ills, and creates radiant, buoyant female health. If you are ill, for your own sake as well as for the sake of those you love, give it a trial. Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice. Her advice is free, and always helpful."

HOW NATIONALISTS SCARED VOTERS

Four Recruiting Officers Reported to Have Been Active in Arthabaska

Among the stories which are coming to light concerning the Nationalist campaign in Arthabaska, is one which is told on the authority of responsible Liberal workers in that county and is generally credited by French-speaking Liberals, however incredible it may appear to the English reader says the Montreal Herald.

It is to the effect that two days or so before the election a group of four men wearing badges of an official appearance, and after spending the night there the four started out in different directions in the county. Knocking at the door of a farm house, each man would produce a large note-book and demand: "How many sons have you, madame?"

To which the farmer's wife replied: "Why do you ask? I have three, but my husband is the only person with the right to vote."

"Madame, you are obliged to answer. Give us the Christian name and age of each of your sons. You know that this election is for the ratification of the Navy Bill. There are two vessels now ready, and if the bill is ratified by the electors we are instructed to recruit mariners for these boats, which will immediately join the English fleet."

It is declared that not less than a thousand families were thus visited.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Nov. 19.—5 a. m.—The barometer is falling in advance of an ocean storm area which is causing a southerly gale along the Coast, and high winds will prevail on the Straits and Sound. Rain has been general west of the Cascades and snow has fallen in Kootenay. Snow is now falling in Northern Alberta and in portions of Saskatchewan.

Forecasts.

For 24 hours ending 5 p. m. Sunday. Victoria and vicinity—Strong winds or gales from the southward, unsettled, with rain. Lower Mainland—Easterly to southerly winds, fresh to high on the Gulf, unsettled, with rain.

CONSERVATIVE CONDEMNATION.

We congratulate the Conservative Association of British Columbia on its action in demanding of the government that it adopt a land settlement policy. We can understand R. F. Green when he says it would be better to wait a little longer. There must still be a few acres of good land somewhere that some government followers have their eye upon. As Mr. Green is the guardian of the government's followers, it is his duty to see that they are properly cared for. He suggests that it might be well to wait until the lands have been surveyed, and the people know where to go, and what sort of land they are getting. This is a fatal admission for a man to make who was once the Chief Commissioner of Lands and Works. It shows that no efforts have been made to survey the lands and to prepare for settlers. The Conservatives are condemning themselves out of their own mouths. What the Times has said has been doubted by many who were not in a position to know, but now there can be no doubt. It can no longer be said that the Times is simply making charges for political effect. The Conservatives of the province should know, and they have spoken. The land policy of the provincial government is rotten to the core, and this even the Conservatives are discovering, and it takes Conservatives a long time to discover anything wrong with their own party. If McBride does not at once set to work to right this wrong the next logical step for Conservatives is to see that he gets down and out.

THE CLERGY AND THE PRESS.

At the bowling club banquet a few days ago Rev. W. Leslie Clay, in proposing the toast of "The Press," took occasion to make some remarks in regard to newspapers which could hardly be taken as complimentary. He particularly emphasized the fact that newspapers were commercial institutions, and that money played all too important a part in their conduct.

We admit that newspapers are generally published for the purpose of making money. Incidentally they aim to create public sentiment in the matter of reforms. The clergy, however, who are usually the first to censure the newspapers, claim to be above such worldly considerations as mere dollars. It is curious, then, that their services should, often be sold in the open market to the highest bidder. The farce of accepting "calls" does not today humbug the people. Usually dollars do the calling. It is well known that the best preachers get the highest salaries just as the keenest business men secure more money for their services than do their less-gifted fellows. These same ministers of religion rely largely upon the newspapers for free advertising. Filed away in the cabinets of practically every newspaper office is a series of engravings of the resident clergy which are used on occasion to advertise them free of all cost. The Sunday services are advertised also without any pecuniary return, and the majority of the church socials are also given free notices. The churches seldom make any recognition of the fact that they get this free advertising, and it is a common thing for the ministers to telephone the notices to the office instead of writing them out, thus taking the time of the staff which should be occupied at more profitable work. In return for this the newspapers get all sorts of abuse whenever they say anything which the clergy do not happen to agree with, or if they refuse to take up some line of publicity which it is thought they should.

The Times has great respect for Rev. W. Leslie Clay, but when he undertakes to lecture the press upon its failings and to charge it with being influenced by money, we tell him that the Times, at any rate, is as fearless in regard to what it says as is any clergyman in the city of Victoria. When reproving commercialism we suggest that he turn his wrath upon his brethren of the cloth, for it is commonly reported that they have a great eye to the dollars, and that they preach to please the people who have them. There have been cases brought to our attention, of some of them who have been told by the money interests

in their churches that they are to leave certain subjects alone, and they have done so. There is need for reform at the fountain head, and we commend this subject to Mr. Clay for his next after dinner lecture.

LEADERS AND YOUNG MEN.

In spite of the fact that this is an age of democracy, and that every man has a say in the matter of the government of the country, the influence of one man is almost as great as it ever was. When the Liberal government was returned to power in Canada it was largely because the people had faith in Sir Wilfrid Laurier; in Great Britain, the influence of Lloyd George is paramount; Disraeli, Salisbury, and Gladstone were almost autocrats; Sir John Macdonald held Canada in the hollow of his hand.

No party can succeed without strong leaders. They are necessary to good government. They must have brains and power. This power is largely a matter of personal magnetism. The man who is to-day a power in the country must understand the people. He must be fearless enough to tell them when they are wrong, and to stick to his guns. There must be a sense of kinship between himself and the people, and he must never fool them, or he is dead. The power of personality is greater to-day than it ever was in the history of the world. There is more scope for its free play. There is a greater admiration for real heroes, but let false gods be set up and they are torn down and trampled with ruthless feet. There must be a note of real sincerity in a man who will be a leader, and he must be wise beyond compare. There are many people who would like to be leaders but have none of the qualifications. There are, on the other hand, many men with the qualifications for leadership who never become great leaders simply because they lack ambition along this line. Leaders are needed to-day in political life, more than ever they were before. Young men are needed in both parties. Young men with the determination to fight for clean politics, for reforms, and for progressive legislation, have a great field before them. This is the day of the young man. If he has ability he is sought in business and in every walk of industrial life. Much more still is he needed in political life. There must be the ballast of older heads, but the enthusiasm of the young man is needed. The Liberal party in this province, for instance, has great need of more young men to take an interest in the organization, and the policies which have made the party great. There is need of young men who will instill new life into the old ranks, and who will look forward with hope to the time when the party of progress will once more have an influence in cleansing the politics of the province of much of its present putridity.

The death of the promising young Victorian, Dr. H. B. Marchant, will be regretted by the whole community. He had but recently passed his medical examinations with conspicuous success and was looked upon as one of the men who would make a mark in the world. The bereaved family has our sympathy at this time. The unfortunate accident has made a gap which it will be difficult to fill.

With a very large surplus in the treasury and with natural resources greater by far than any other province in the Canadian Confederation, which would be productive of vast revenues if they were not being exploited for the benefit of ministers and their friends and political hangers-on generally, Premier McBride and his organ in this city say they will continue to make demands upon the rest of Canada for "better terms." That will hardly be a good cry for Mr. McBride to take with him when he thinks he has reached the goal of his ambition and with his ear to the ground hears a cry from Ottawa.

He is a wise correspondent in these days of intense activity who cuts his communications down to the bone. The Times is inundated with letters just now discussing all manner of subjects; some important, others of a trivial nature. Some of these contributors complain because their letters have not been printed. If our facilities were of the best (which they are not, although we hope they soon will be), and if the pressure of news were not so great, we could not handle half of the contributed matter which has been submitted for editorial approval. Correspondents should therefore bear in mind that while we value their contributions as expressions of public opinion and of public interest in matters of vital public importance, the writer whose letters are short and quickly reach the point are invariably given the preference. Readers of the present day also prefer short articles. And the readers' attitude of mind are entitled to the first consideration.

Finally, the space of a newspaper nowadays is too valuable to be given up to a discussion of mere trivialities.

While there is a general expectation that arrangements will shortly be concluded making it possible for the B. C. Electric Railway Company to undertake the work of extending the line to the Saanich peninsula, in the interest of accuracy it is to be mentioned that there is at present no certainty in the matter, inasmuch as the fate of the whole enterprise rests upon the decision of the board of directors in London. This note of explanation is felt to be due those who may have interpreted the meaning of the announcement by the company appearing in last evening's issue of the Times.

MORE SNOW.

Dayton, Wash., Nov. 19.—Snow to a depth of more than six inches has fallen here since last night and although the first sign of winter this year, few storms have been so severe save in the middle of the cold season. Old settlers predict a severe winter.

FATAL FIRE.

Moncton, Nov. 19.—Bruce McDougall, editor and publisher of the Vindicator, fell down a flight of stairs in the Windsor hotel at Sydney, C. B., and broke his neck. He lived five minutes after being found. McDougall was here in connection with the defence of several newsmen arrested in Glace Bay for selling the Vindicator. When on the way to the train he was assaulted and terribly beaten by several persons and left on the road.

GRADUATE NURSES—S T. JOSEPH'S HOSPITAL.

24: Queen, Dec. 28; City of Puebla, Jan. 2.

WOMAN ENDS LIFE.

Nome, Alaska, Nov. 19.—A demented Eskimo woman named Chinahook committed suicide in the federal jail here yesterday by blowing her head off with a shotgun. The woman was recently brought to Nome from Candle. She was allowed to wander about the jail, and went into the washroom and obtained a guard's gun and shot herself. As a result of the affair it is probable that the government will be asked to conduct an investigation.

SUFFRAGETTES LIBERATED.

London, Nov. 19.—One hundred and nineteen suffragettes arrested yesterday evening during riots which followed an attempt to enter the House of Lords, were discharged at Bow Street police court to-day at the request of Hon. Winston Churchill, the home secretary.

DIES FROM INJURIES.

Penticton, Nov. 19.—Rev. N. K. Simpson, Baptist minister at Kaledan, is dead as a result of injuries received in a fall from a horse. Rev. Mr. Simpson leaves a widow and a daughter 18 years of age. His widow and the wife of Lieut. Governor Bullock, of Alberta, are sisters.

WINTER SERVICE NOW ARRANGED

Revised Schedule of San Francisco Liners Issued—Four and Five Day Sailings

R. P. Rithet and company, local agents for the Pacific Coast Steamship company, yesterday received a revised winter schedule showing the sailings on the Seattle, Victoria and California service for the coming winter. As announced in the Times previously, the fine steamships President and Governor will be on the run until the end of February, and, possibly longer. Starting in December a service of four and five days will be given, two boats leaving for San Francisco every nine days. A novel feature of the schedule, which is the best yet provided by the company during the winter seasons, is that all steamships will go right through to San Diego.

The revised sailings are as follows: Leaving Victoria for San Francisco and San Diego, President, Dec. 3; Queen, Dec. 10; City of Puebla, Dec. 17; President, Dec. 18; Umatilla, Dec. 15.

PROSECUTION IN COAL LAND CASES

Special Assistant Attorney-General is Now on Way to the Coast

(Times Leased Wire.)

Washington, Nov. 19.—Following a ten day conference with Attorney-General Wickersham and Secretary Ballinger, T. B. Townsend, special assistant attorney-general who has been assigned to prosecute those recently indicted at Tacoma and Seattle for alleged land frauds in connection with the acquisition of coal lands in Alaska, is en route to the west to-day.

Previous to his departure from Washington yesterday, Townsend discussed the plan of prosecution and the manner of handling the government's case was decided upon.

The steamer Tees, Capt. Gilliam, sails to-morrow night for Halberg and way ports on the west coast.

Bringing a full load of farm produce from the Fraser river the Gulf S. S. Company's freighter Trader returned to port to-day.

Wireless equipment is already installed on the S. S. Trader, which called here this week on her maiden trip from Yokohama to

Tacoma, but no operator is carried and the apparatus is not yet in working order. It is probable that the wireless will be used on the return voyage. The remaining steamships of the O. S. S. K. line are being equipped with the Japanese system used on the N. Y. K. fleet.

VICTORIA WILL DEFEND TROPHY

COOPER-KEITH CUP TRUSTEES AGREED

Decision Reached Yesterday
Afternoon by Messrs. Mil-
ler and Woodward

Victoria plays California for the
Cooper-Keith cup at Christmas.

Trustees Miller and Woodward met
in Vancouver yesterday afternoon and
with a copy of the deed of gift before
them found that no clause was con-
tained in it affecting the number of
games to be played, to decide the
question which has caused so much
anxiety here during the last week.
Thereupon Mr. Woodward agreed to
allow Victoria the honor of defending
the cup, now held here.

The original deed of gift is as fol-
lows, and it is on this that Trustees
Miller and Woodward yesterday up-
held the agreement made between the
teams prior to the match last Satur-
day, that the winning team should de-
fend the cup against California.

1. The cup shall be known as the J.
C. Keith Rugby Football Challenge
cup.

2. The object of the cup is to en-
courage and promote Rugby football
on the Pacific coast of the Dominion
of Canada and the Pacific coast of the
United States of America.

3. All competitions for the cup shall
be held under the auspices of the
Union to be known as the Pacific Coast
Rugby Football Union and under the
direct control of the officers of the
Union when such union is formed and
until such time under the control of
the said trustees, who shall decide on
all points of dispute or difference of
every nature whatsoever in connection
with same provided that any of the
aforesaid teams competing for this cup
may appeal from any decision of the
officers of such union as may be here-
after formed (except as to a question
of fact as to which the decision of the
officers of the union shall be final), to
the above-named trustees on giving
due notice to all other teams interest-
ed in the decision appealed from, and
the decision of the trustees shall in
such cases be final.

4. All competitions for the cup shall
be competed for under the latest rules
and regulations of the Rugby Football
Union.

5. All teams competing for this cup
shall be composed of purely amateur
players.

6. All matches shall be played be-
tween the champion team of the Pa-
cific coast of the Dominion of Canada,
and champion team of the Pacific coast
of the United States of America.

7. The champion team of the Pa-
cific coast of Canada shall be the hold-
ers of the time being of the McKeech-
ie cup, subject to any challenge that
may be issued by any club affiliated
with the British Columbia Rugby
Union, which challenge must be in the
hands of the trustees before the first
day of October of any year.

8. The above cup shall be competed
for not more than once in each year,
on the ground of the team defending

the cup, or on grounds mutually agreed
upon by the challenging and defending
teams.

9. Teams desirous of challenging for
the cup shall give notice in writing to
the trustees on or before the first day
of December in each year and shall at
the same time forward a copy of such
challenge to the secretary of the de-
fending club, duly registered, and the
right to such club to play for the cup
shall be decided upon by the trustees.

10. After such decision the trustees
shall give the defending and challeng-
ing teams at least fifteen days' notice
in writing of the date fixed upon by
them for the match to be played, but
the trustees must select some date not
later than the 31st of December in each
year for the date of the first match of
such series.

11. The best out of three matches
shall decide the competition and the
winners thereof shall be entitled to
hold the cup for the year.

12. The winners of the cup shall
enter into bond satisfactory to the
trustees for the safe return of the
same whenever called upon.

13. In the event of any trustees ceas-
ing to hold office new ones may be ap-
pointed by the donor, and such new
trustees or trustees accepting (just
shall place his or their hand on this
instrument).

14. The trustees shall, subject to the
approval of donor, have power to alter
these conditions as they may deem
wise for the welfare of Rugby football
and shall notify the secretary of the
Pacific Coast Rugby Football Union,
when formed, or any such change.

SUCCESSFUL RACES UNDER MILLER BILL

Dufferin Park Had More Events Than Under the Old Ra- cing Conditions

The Canadian racing statistics for
the year furnish interesting reading.
Woodbine and Dufferin park are in the
same category, and help to give To-
ronto most of the records. The Ontario
Jockey Club nearly doubles any other
track in the matter of distributing
prize money. Dufferin park is crowded
in most events in their fourteen days
of lawful racing, viz., 111, or about
enough for twenty days under the old
regime. Hamilton, as usual, heads the
list with beaten favorites. Canadian
owners are well up at the top, the
Hendries coming fifth, Mackenzie
sixth, Sagam eighth, Red Walker
ninth, Johnny Diment 14th, R. Davies
15th, and Mrs. Livingston 18th. Hen-
drie's Parmer is the best individual
winner of the Canadian horses due to
his plate victory, with Cape Sauce
right beside him. On the whole it was
a most successful year on the Cana-
dian turf and the complaint that there
were too many and long intervals be-
tween meetings, heard in some quar-
ters, is taken generally on this side as
a blessing rather than a drawback.

COLLEGIATE SPORTS ON SATURDAY WEEK

Vancouver School Rugby, Bas- ketball and Hockey Teams Come Over

Two weeks from to-day will be in-
ter-collegiate sports day in Victoria,
and four Victoria High School athletic
teams will try conclusions in three
branches of sport against the four
teams composed of Vancouver stu-
dents. The programme will be:

In the afternoon—Rugby between the
Rugby players of the schools of the two
cities, and hockey between the girls'
teams of Vancouver and Victoria High
schools.

At night—Basketball between the
senior teams and also between the
junior teams.

This event has become an annual
one for which the teams of the Vic-
toria High school train specially. The
different teams have for some weeks
been busy with their respective
sports, and the Rugby team has a very
fine side this year. The hockey team
and basketball five will, from all ac-
counts, be better than they were last
season.

THE DECEMBER OUTING.

In the December number of The
Outing Magazine, Warwick Carpenter
tells of the joys of winter camping in
his article, "In Winter Woods." Ac-
companying this are some of the best
outdoor photographs ever published.
Horace Kephart tells how to erect a
log cabin that will last. Dillon Wallace
is on the third stage of his Rocky
Mountain trip, and his experiences in
crossing the Rockies on horseback are
becoming more and more interesting.

For the man who would become an
expert wing-shot, Charles Askin tells
"The Right Way to Aim a Shotgun."
F. Berkeley Smith tells of "The Ad-
ventures of an American Hunter in
Normandy."

One of the greatest movements of
to-day is the organization of Boy
Scouts. The wonderful development of
this organization and its purpose are
thoroughly discussed by Frank B.
Arthurs in his article, "Boy Scouts
Building for Manhood."

In addition to these there are sev-
eral short stories of the usual type of
Outing fiction. Such as, "A Flareback
to Nature," "A Change of Mind,"
"Out With the Fish Patrol," a realis-
tic account of the capture of fish
dynamiters off the Maine-Canada
boundary line.

SAYS MONEY PRIZES WILL MAKE AMATEURS

A. B. George Takes New View and Endorses Cash Prize League for Sports

Under the title "Towards Real Ama-
teurism," A. B. George writes as fol-
lows in the Winnipeg Tribune:

"A good many years have passed
since the writer commenced to ex-
pound the doctrine that the way to
bring about a real state of amateur-
ism in athletics was to give money
prizes. This apparent paradox was
scouted at by many, but gradually the
truth is becoming more evident. It is
good to note that an organization
known as the Cash Prize League has
come into being in America, and that
this receives the endorsement of Mr.
J. E. Sullivan, president of the Ama-
teur Athletic Union. Would that the
English A. A. A. saw matters in a dif-
ferent light, and recognized that the
mere labelling of an athlete an ama-
teur does not make him one. The En-
glish authorities think that by oppos-
ing professionalism, and giving a man
no chance to run for money, he is
forced to be an amateur. It is this
policy which leads to abuses—roping
for the sake of betting, and the sell-
ing of prizes.

"As so often pointed out by the
writer, when athletes can compete for
cash or prizes, as they elect, the pro-
by inclination and necessity, will go
over. Having the amateur ranks what
they should be. One immediate step
would be to induce public school and
varsity athletes to support open meet-
ings, as they did before the artisan and
laborer came into amateur athletics.

"This desirable state of affairs may
gradually come about through the ef-
forts of the National Athletic Union,
which has been formed to promote foot
racing for both cash and prizes. The
new body is gaining in strength, and,
as it recently effected an alliance with
the National Cyclists' Union, athletes
will be more confident that it has come
to stay. Just as soon as this point is
assured, probably quite fifty per cent.
of the men now in the amateur ranks
will elect to compete for cash."

SPORT NOTES

C. B. Worsnop, manager of the Van-
couver Rugby team, went back to
Vancouver "all hot up." He informed
the Vancouverites that "the accident
to Roberts was one that could have
been avoided." He said he had seen
the Vancouver papers take the stand
that the game would decide the Cal-
ifornia opponents (this stand was ta-
ken before the game), but Mr. Miller
had told him Saturday it was the best
two out of three. He ended his re-
marks by saying he was not sure what
the position was.

Preparations have been made to
seat 60,000 spectators at the Yale-Har-
vard football game to-day. Ticket
speculators yesterday were offering
tickets at as high as \$100 for the best
positions. The game is being played
at New Haven, Conn.

Harvard's last touchdown against
Yale was scored in 1901, but Prince-
ton scored one in 1903. The flgers
have not beaten Yale since 1903, when
the score was 11 to 6, but a no-score
tie was played in 1906.

Yale was beaten by Princeton, 11 to
6, in 1903. Since then Yale has beaten
the Tigers in every game except that
of 1906, in which there was no scoring.

Bobby Kerr, the Hamilton sprinter,
who has been out of training for some
time, has decided to get into shape
again, and will compete at some of the
big indoor meets to be held across the
border this winter. Kerr feels that
the rest he has had will do him the
world of good, and there is no reason
why he should not show his best form
this season. The knee which he in-
jured while playing football is still
bothering him, but the injury is not
serious and will in no way interfere
with his training.

When the next New York state leg-
islature convenes at Albany a bill will
be introduced legalizing public boxing ex-
hibitions of a limited number of
rounds before incorporated athletic
clubs. New York sporting enthusiasts
assert that they have received assur-
ances of a strong backing for the
measure and believe that it will pass.

While the soccer game is undoubt-
edly forging its way into public favor
slowly but surely in Canada, it is in-
teresting to note that the game has
taken an extraordinary hold on the
south of Russia. A series of matches
played in St. Petersburg by good clubs
against the celebrated Czech team
from Prague attracted over 20,000 spec-
tators at each game.

The National baseball board of arbi-
tration has upheld the ruling of Pres-
ident Graham, of the Coast league, in
the Heffling case. The ruling, however,
made no difference to the pennant,
which Portland won despite the three
games taken away because of playing
Heffling.

Jack Gleason, of San Francisco, is
at Chicago on what is supposed to be
business of the third major ball league.
He has made arrangements for Buf-
falo park, New York, to be made into
a first-class ball park, and says the
new major league looks as if it would
be realized.

Johnny Krayne and One-round
Hogan made final arrangements to-day
for their fight at San Francisco on
December 27. The men agreed to make

New and Attractive Ideas In Ladies' Fall and Winter Coats

During the past two days we have received a
splendid assortment of the latest ideas in Ladies' Coats,
Dressing Gowns and Blouses.

Showings for Saturday

Among the new arrivals will be found the
very newest cuts in Velour-de-luxe Coats.
These Coats have a particular attraction for
the reason of their very advanced ideas in
styles. A wide range to choose from—no
two alike. Prices range from

\$30 to \$100

Many styles in Lined and Unlined Coats,
in mixtures of broadcloths, pure wool,
friezes, and polo cloths.

\$15 to \$25

Raincoats, in silk-rubber-cravenette, some
raglan shoulders and some semi-fitting.

\$10 to \$40

PLAN TO TAKE MEXICO CITY

(Continued from page 1)

Rangers Ordered Out.

Austin, Texas, Nov. 19.—Governor Campbell ordered to-day the entire force of Texas rangers to proceed to the Mexican border to break up armed bands of Mexicans forming there for the supposed invasion of Mexico. Governor Campbell directed the rangers to arrest all who attempted to cross the border on the ground of a violation of the neutrality law.
Rangers in Rock Springs, who have been mobilized there for the purpose of preventing a clash between cowboys and Mexicans believed to be marching toward Rock Springs, left early to-day for Del Rio to patrol that section of the river between Del Rio and Eagle Pass. Governor Campbell announced he would patrol every section

of the border between Texas and Mexico.

According to advices received from Del Rio and Eagle Pass, more than 1,000 Mexicans are encamped along the Rio Grande in bands of from 20 to 100. It is believed as soon as their organization is perfected they will proceed toward Mexico City.

Hundred Killed in Riots.

Mexico City, Nov. 19.—Reports from the border to-day contained information that armed bands of Mexicans were raiding the ranches on both sides of the boundary line between Mexico and Texas. It was reported that Francisco Madero, revolutionist leader, was purchasing horses in large numbers and concentrating them preparatory to a march on the Mexican capital.

A regiment of troops to-day is patrolling Puebla, to prevent a renewal of the riots of yesterday. It was estimated to-day, after a careful count, that more than 100 were killed during the fighting in Puebla streets. Among the slain was Chief of Police Carbera.

ENTERTAINMENT AT ST. ANN'S ACADEMY

Fine Programme—Graduate Nurses From St. Joseph's Receive Diplomas

What was considered by many the prettiest and most carefully prepared entertainment of the season was given last evening in the large and perfectly equipped hall of St. Ann's academy, which was crowded to the doors long before the hour appointed for commencing the programme. The latter was long and varied, and every number was perfect from a musical and artistic standpoint. The high degree of excellence could only have been attained by the pupils by months of careful preparation on the part of the sisters of St. Ann.

The first number, a duet for eight hands from Wagner's "Tannhauser," was played in perfect tempo and with a great deal of expression by four little girls, the Misses G. Anderson, A. Ferguson, M. Toile and K. Russell.

When the curtain rolled up for the second number, a chorus, "Holland's Hope," there was a clasp of admiration, as sixteen little tots in quaint blue Dutch dresses and close-fitting blue bonnets were disclosed against a picturesque Dutch background, with a toy wind mill going round and round. The chorus was very prettily given to a pantomime accompaniment, and a clever manipulation of colored lights.

The pantomime, "The Last Rose of Summer," was beautifully given by sixteen young ladies in dainty white dresses with pink ribbons, each of whom held a large rose in her hand, with which she kept time to the voice of a concealed vocalist who sang the words.

What was thought by many to be the star number on the programme was the silver stars drill. This was given in perfect time and without a moment's halt or hesitation by sixteen young girls wearing white Greek costumes with their flowing hair bound with silver, silver girdles, silver sandals and carrying silver wands tipped with silver stars. The drill in itself was exceedingly pretty, but given under colored lights it was more than that. It was beautiful and elicited a storm of applause.

"A Life's Lullaby," sung by Miss A. Brown, brought the well-trained and pleasing young singer a persistent encore. Then came a merry, tripping band of tiny girls in gay milk-maids' costumes of black and yellow, with touches of red in their jackets. They carried bright tin-pails and announced that they were going a-milking. They, too, were recalled.

The scriptural scene, portraying the parable of the ten virgins, was an excellent number, cleverly conceived and admirably carried out. The curtain rolled up disclosing ten beautiful girls in gorgeous Oriental costumes, seated in an Oriental garden, wearing chaplets of flowers and laughing and talking gaily. A messenger, also richly dressed in Oriental fashion, burst in upon them saying, "Behold the bridegroom cometh! Go ye forth to meet Him!" The five wise virgins proceeded to trim and fill their lamps, but the foolish ones kept on weaving their garlands of flowers. Then, while the bridegroom tarried, they all sank asleep in graceful attitudes, and while they slumbered the bridegroom came. Golden doors opened at the back of the stage, disclosing a beautiful golden stairway glistening with white and silver drapery, on which were ascending white-robed angels with glistening wings. The five wise virgins at once sprang up to join them, but were detained by their foolish, improvident sisters who begged for oil for their lamps, which had gone out. They were refused, and the golden door closed upon them, while from behind came strains of celestial melody. The foolish virgins, with despairing gestures, beat upon the door, begging for admittance, but the only answer was, "Too late, too late, ye cannot enter now!" When the curtain finally dropped on the scene the audience were silent at first from appreciation, but soon recovered themselves and applauded most heartily.

Miss Irene Ulin followed with a brilliantly rendered piano solo, and a dual chorus by a massed body of children brought the programme to a close.

A most interesting ceremony followed, however, the presentation to the graduating nurses of St. Joseph's hospital of their medals and diplomas by Dr. J. D. Helmcken. The training class and graduating nurses, took their places on the platform, with the latter occupying the front row, and the valedictorian, Nurse A. Gillis, read the address, in which she referred in the most affectionate terms to the hospital staff and the sisters of St. Ann.

Dr. Helmcken then read the address, and Dr. Helmcken made the presentations, after which he addressed the nurses and audience. His remarks were brief but to the point. While commending the nurses as one of the best graduating classes he had ever had the pleasure of addressing, he reminded them of the fact that they had got a great deal to learn, and that before a girl could be a successful nurse she must first of all be a true, womanly woman. They would meet with many discouragements, but they would also have cases which would turn out successfully, and one would balance the other. The speaker then reminded the audience that nurses were but human, they required rest and proper nourishment, they could not do with an hour's sleep out of the twenty-four any more than a workman could. The latter commenced work at eight o'clock and at five-thirty his day's labor was over. A nurse's was never done, especially if she had a critical case on hand, and it was only by the aid of her friends and the rest that she could keep going. Refreshments were served by atten-

THE BITULITHIC PAVEMENT

Non-Slippery

Noiseless

Dustless

Sanitary

Waterproof

Durable

Easy to Maintain

Moderate in

Cost

In the efforts to provide a permanent roadway which would accommodate the necessities of increasing traffic conditions, many forms of construction have been used, including wood block, brick, granite blocks, sheet asphalt, blocks made of combination of asphalt and sand, and pavements of concrete. All these various forms of construction, however, have fallen short of the qualities of the ideal pavement as established by such experts on road construction as Tillson and Baker.

"Municipal Engineering" is authority for the following table showing comparative merits of asphalt, brick and Bitulithic with the ideal pavement based on standards from the authorities indicated.

"Street Pavements and Paving Materials," by Geo. W. Tillson.

	Ideal	Asphalt	Brick	Bitulithic
Cheapness	14	4	3	4
Durability	21	15	13	16
Easiness of cleaning	15	15	12	15
Light resistance to traffic	15	15	12	15
Non-slipperiness	7	3	6	7
Ease of maintenance	10	6	6	7
Favorableness to travel	5	5	4	5
Sanitariness	13	13	11	13
	100	76	67	82

Construction

The Only Non-Slippery Roadway

Owing to Its Method of Construction, Bitulithic Is the Only Road which Is Non-Slippery. It Has Been Laid on 12 Per Cent. Grades

Mr. C. H. Rust, City Engineer of Toronto, Says of Bitulithic:—"It Is Not so Slippery as Asphalt and Affords a Good Foothold" to Horses

READ THESE TESTIMONIALS

Mr. Charles Loeb, Chairman of the Board of Affairs in the City of Charleston, W. Va., enquired from several cities their experience of BITULITHIC, and amongst many replies received the following:—

Spartanburg, S. C., January 18, 1909.

Chas. Loeb, Chairman,
Charleston, W. Va.
Bitulithic pavement entirely satisfactory. Has fully complied with all claims for it after three years' test. Don't believe Spartanburg taxpayers would allow other sorts to be adopted.

A. M. LAW, Chairman.

Charlotte, N. C., January 18, 1909

Chas. Loeb,
Charleston, W. Va.,
Bitulithic an excellent pavement.
JOSEPH FIRTH, City Engineer.

Norfolk, Va., January 18, 1909

Chas. Loeb, Chairman Board of Affairs,
Bitulithic paving is superior to brick on residence streets, being much less noisy and more sanitary. In our experience we think Bitulithic more durable and will lay no more brick. The standing of the company you name is beyond criticism. What it promises it can and will carry out even at a loss.

W. T. BROOKS, City Engineer.

Winston-Salem, N. C., January 18, 1909.

Chas. Loeb, Chairman,
Charleston, W. Va.
Bitulithic pavement in my opinion is unexcelled.
O. B. EATON, Mayor.

Salisbury, N. C., January 18, 1909.

Chas. Loeb, Chairman,
Charleston, W. Va.
Telegram received. After several years' careful examination of different street paving, I am satisfied Bitulithic is the very best.

A. H. BOYDEN, Mayor.

Rocky Mount, N. C., January 18, 1910.

Chas. Loeb,
Charleston, W. Va.
I visited Norfolk, Newport News, and found all streets of Bitulithic satisfactory to public.
R. R. GAY, Chairman Committee.

In the Green Room.

Despite the technical weaknesses of the play, Miss Virginia Harned and a well-balanced company pleased a fair-sized audience, in "The Woman He Married," which was presented at the Victoria theatre on Thursday evening. Instead of the play affording a ready vehicle for the talents of the performers its presentation is made a success only by the earnest

pestering small worries that come in the train of debt his wife again poses as a model, but without his knowledge. A cad, who fancies himself injured by truth-telling on the part of the wife put the match to the powder, and the resultant explosion is like to blow to bits a little castle in Spain in a Harlem flat. But then everyone knows there is the fourth act coming

scene is well led up to in the gradual departure of all except the two principals, but is too long. And the husband, who never gets a grip on the sympathy of the audience, comes near to gaining it, just as the wife almost loses her hold, as a result of the quite unnecessary tangle of lies in which the dramatist involves her.

The fourth act goes far towards redeeming any defects in the preceding three. The reconciliation between Harding and his wife is artistically worked out, and the curtain finally falls with happiness for all—except the artist, who is the one manly man in the play. This part was well taken by Paul Harvey. The scenes were staged commodiously. In two acts a simple drawing-room set being used and in the other two a studio of Rembrandt effect.

Recent events have made the future of the Victoria theatre more uncertain than ever. How the purchase of the property by a business firm may effect the three-year lease which Klaw and Erlanger lately secured does not yet appear. In any case Victoria is not likely to see much in the amusement line outside vaudeville and moving picture after January 1 until a new theatre is built. Even if the Victoria remains open we will not get much, if anything, from Klaw and Erlanger. Until they build theatres in Vancouver, Seattle and Spokane—if they do—they will not be in a position to send any attractions on tour this way. They could continue to book in the Northwestern Association houses as heretofore, but Marc Klaw has declared that they will not do so. That means a long spell of darkness for the old house.

Henry W. Savage, one of the leading producing managers of the day—and an independent—sends us "The Prince of Pilsen" next Monday with a cast containing no less than ten stars. A week later he will present Blumson's famous "Madame X," a strong play with a good company. In this is staged what is generally admitted to be the best court scene yet. Courtroom scenes, by the way, are very seldom put on in a satisfying manner.

The best of good luck will be the hearty wish of every playgoer for that pioneer Victoria theatrical manager, Bob Jamieson, who has taken over the Crystal theatre. That recently-erected playhouse on Broad street might be called a cosy little one were it not that the diminutive adjective does not apply. The size of the interior is a revelation. The building is solidly constructed, the seating is comfortable and well-arranged and Mr. Jamieson has in his new house one of the best in the city. That he will make it a vaudeville house at an early date is certain. Every success to him!

Miss Margaret Anglin is at present under the surgeon's care. While the throat affection from which she is suffering is most serious the latest word is a little more reassuring than the first accounts which were sent out.

MISS CAMERON.

One of the Ten Stars who appear in the Production of "The Prince of Pilsen," at the Victoria Theatre on Monday Evening.

work of the half-dozen members of the cast.

A wife's sacrifice is the basis of the story. John Harding, son of a wealthy man, marries an artist's model, a thoroughly good woman—as models can be, notwithstanding some notorious exceptions. The father cuts off supplies in the belief that love will fly out the door when poverty enters, and the same idea haunts the wife as a fear. The future hangs upon the success of a play Jack is writing, and to enable him to work without the

to readjust all things! Incidentally, one wonders why so many playwrights paint husbands who, professedly loving their wives most devoutly, fly at a moment's notice to the other extreme and believe the worst of them upon some flimsy piece of evidence—or none at all.

At the end of the third act there is what might be termed a "confession" scene, which is the one opportunity afforded Miss Harned in the whole play for the display of her undoubted abilities as an emotional actress. The

"Prince of Pilsen."

The story of the "Prince of Pilsen," the delightful musical comedy by Luder and Pixley which Manager Henry W. Savage sends, with an all star cast, to the Victoria theatre, on Monday evening next, takes players and audience to Nice during the Car-

nival of Flowers. The fete is at its height when the proprietor of the Hotel Internationale learns that the Prince of Pilsen, who is travelling incognito, is a prospective visitor and may be expected to arrive at any time. With an eye to the main chance the boniface spreads the news and prepares to receive the guest with pomp and circumstance befitting the prince. He employs a band of musicians to meet the distinguished guest at the railway station, engages a bevy of

girls to strew flowers, and lends every effort to the end of giving the seignior a royal welcome.

It happens that Hans Wagner, a brewer from Cincinnati, U. S. A., accompanied by his daughter, is on his way to Nice to meet his son, who is a lieutenant on an American ship visiting that port. On debarking from the train, Wagner is mistaken for the prince by the leader of the band and music, flowers and much homage welcome him to the Riviera. The brewer, much amazed at his reception; at first protests but at length concludes that the popular acclaim for the "Prince of Pilsen" is due to his brand of Pilsen beer.

When the real prince, a dashing student from Heidelberg, arrives with his suite, he is not only ignored, but even finds difficulty in securing accommodation at the hotel. He is told that the Prince of Pilsen's presence at the hostelry leaves little room or time for entertaining others. He decided not to disclose his identity but to await a favorable opportunity for exposing the impostor. However, he happens to meet Nellie Wagner, the brewer's daughter, and a minute's conversation with her is enough to show him that the Americans are innocent of any part in the deception; that the situation has been forced upon them.

In full enjoyment of the affair he remains a commoner and permits the blundering brewer to involve them both in a series of ludicrous situations, but, falling in love with Nellie, the real prince finally declares himself, and happily ends the complications.

New Grand Theatre.

Half the bill for next week comes from Seattle and the other half from Vancouver. Reports, press and verbal, from both cities say that the Grand (where everybody goes), will have the brightest and cleverest billing next week that it has had in many a long day, and this in spite of the classy shows that have been staged here the last two months.

Irishmen, and all who love the Irish—and who does not?—will gather Monday night to see the eminent Irish comedian, Pat Reilly (sure and it's an Irish name), make his debut in vaudeville; appearing in the new and bright playlet, "In the Days of '61." With Pat Reilly will be that clever and engaging actress, Flo Wells. Mr. Reilly's debut in vaudeville came as a surprise across the continent, but everywhere vaudevillians have received the genial gentleman with wide-open arms, and Luder's and Pixley which Manager umphant tour.

An attraction that is unique, novel and pretty, with the three Stock sisters appearing in it, will be put on by the Tennis trio. Racquets are their stock in trade, and while most racquet handlers go in only for the game on large-sized courts, they will have some novel stunts to become acquainted with next week. These three sisters are amazingly clever and nothing

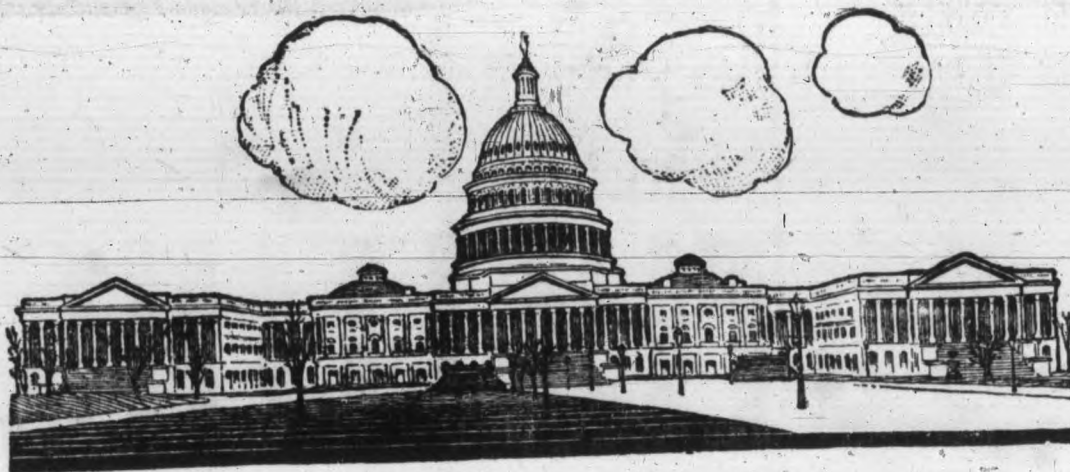

that can be done with a tennis racket comes amiss to them.

An attraction that would get first billing in any show is that of the wonderful "Huntress," America's most artistic and superbly-costumed female impersonator. In full view of the audience Mr. Huntress will make his transformations to the feminine and give examples of drapery dancing, an art that has never before been done outside woman's realm. For its gorgeous costuming and scenic effects, all brought here by Huntress, this act will stay in the minds of vaudeville patrons as something to be long remembered.

The jolly German Jester, George Yeoman, than whom there is no better Dutch dialectician; and Gil Brown and Lillian Mills, song-and-dance artists of great merit and much fond for laughter, will be added attractions to what is really a phenomenal bill for stage scenery and good talent.

Mr. Price is billed to sing, and his song will be illustrated. Manager Worley has been advised that more new moving pictures are en route for next week.

There will be a weekly mail this winter from Aldermere to Hazelton and vice versa.

The Cost of Food

In the Capitol at Washington and in nearly every state in the Union, investigations are going on as to the reason for the increasing cost of living. Food expense has become a serious problem in many families, and a nation-wide protest is being made against the present range of food prices.

We have not hitherto featured the economy of

Ghirardelli's GROUND CHOCOLATE

simply because it has so many other qualities to recommend it. But in view of the present situation we urge upon every family to begin the use of Ghirardelli's Ground Chocolate. It will prove a delightful surprise to those who have never tasted this delicious beverage, and its use will materially lower the cost of the family food, because it is the most nutritive and satisfying of all foods. Try it to-day. You will feel better, you will be stronger and you will need less of other foods.

D. Ghirardelli Co.

Since 1852

No investigation of the price of Ghirardelli's Ground Chocolate will be made, for its retail price has remained the same for twenty years.

Asaya-Neurall

THE NEW REMEDY FOR

Nervous Exhaustion

Night sweats are a sure sign of nervous exhaustion. They weaken the body and depress the mind. "ASAYA-NEURALL" will overcome this condition. It feeds the nerves with Lecithin, the element required for nerve repair. Full control of the bodily functions soon returns. Restful sleep is obtained, the appetite and digestion improve, nerve vigor is regained. \$1.50 per bottle. Local agent.

HUNTRESS.

Female Impersonator, Drapery Dancer, and Wearer of Gorgeous Costumes. Who Will Appear, With His Own Scenery, at the Grand Next Week.

PAVING PROBLEM ON BASTION STREET

Owners Complain of City's Delay—City Engineer to Decide

Property owners on Bastion street are again urging upon the civic authorities the desirability of at once proceeding with the work of repaving that thoroughfare. A somewhat curious state of affairs in connection with this matter was revealed in a letter read at last evening's meeting of the streets committee of the council. It appears that the owners had been advised that there would be no legal difficulty in having the work taken in hand for the laying of an asphalt pavement, and after the necessary petition had been prepared they were informed that Langley street would have to be included also, and that as certain owners on the latter thoroughfare objected to the type of pavement proposed, this would block the work until an agreement between all the owners had been reached. The letter read as follows:

Gentlemen: It is now about eight weeks since the owners of property abutting on Bastion street met the city solicitor and discussed with him the repaving of that thoroughfare.

He informed us that a portion of Langley street was included in the Bastion street paving by-law and, in consequence of the entire work having outlived its usefulness, three years short of its expected life, Mr. McDermid expressed the wish that the repaving of the entire defective work should be carried out under one new agreement; but he nevertheless led us to believe that the repaving of Bastion street could be arranged for independently of Langley street.

Contrary to our wishes, a few days later, we received the draft of an agreement covering the entire work of both Bastion and Langley streets and the owners of property abutting on Bastion street signed it at sight, upon an assurance that the repaving of Bastion street would be commenced within a few days.

The endeavor to meet the wishes of the city solicitor in respect to obtaining the signatures of owners of property abutting on Langley street was not successful and, in consequence, the agreement was handed back to him completed for Bastion street only. That was about seven weeks ago and so far as we can see, the repaving of Bastion street is now indefinitely held up.

As before stated, the signatures to the agreement drawn by the city solicitor have been secured for the repaving of Bastion street and the object of this communication is to request that that work may be commenced without any further delay.

We wish to add that it is very discouraging to find our efforts to obliterate a disgraceful eyesore in the heart of the city meeting with apparently little, if any, support from the only source from which assistance can be looked for.

Ald. Mable was of the opinion that

Keep Baby's Skin Clear

Mothers, do you realize the importance of caring for baby's tender, easily irritated skin? Neglect or unsuitable methods may give rise to simple rashes or tiny sores. Torturing, disfiguring humors follow and threaten to become permanent. Not only is Cuticura Soap the purest and sweetest for baby's bath but, assisted by Cuticura Ointment, it affords the speediest and most economical method of clearing baby's skin and scalp of eczemas, rashes, itchings and irritations, and of establishing a permanent condition of skin and hair health.

Cuticura Soap and Ointment are sold by druggists everywhere. Potter Drug & Chem. Corp., Sole Props., Boston, Mass. Send for free Cuticura Book on the care of skin and scalp.

the letter should merely be received and filed. The owners who wanted litigation ought not to be permitted to dictate to the council.

Mayor Morley said it was well known that the objecting party on Langley street was Mr. Gamble, public works engineer, who wanted litigation. Mr. Gamble was not running the city. The matter of selecting a pavement should be left in the hands of the engineer.

It was so decided and the letter was received and filed.

HOUSE OF REPRESENTATIVES.

Question of Reduction of Membership Will Be Considered.

Washington, D. C., Nov. 19.—In spite of the increased population of the United States, it is probable that one of the subjects of legislation before the short session of congress will be a decrease in the membership in the House of Representatives. The lower body already is regarded as too unwieldy and to increase the representation based on census returns would place the house beyond the power of transacting the government's business. The population required of each congressional district probably will be raised and it is not likely that the representation will be increased except in the far west, where the percentage of growth in population has been enormous. Plans for the short session of congress were discussed by Senators Hale, Maine; Burton, Ohio; Borah, Idaho; Flint, California; Culbourn, Illinois; Piles, Washington; Bailey, Texas; Mississippi; Culbourn, Texas; and Overman, Indiana.

INDIAN DIES IN THE WOODS.

Creston, Nov. 18.—Last Thursday evening during a heavy rainstorm a young Kootenay Indian named Charlie perished from cold and exposure. Last Thursday morning the deceased and his father started out from Kitchener to go hunting. They separated with the understanding that each should return to camp in the evening, but the boy did not put in an appearance. The following morning a search party of Indians started out from Kitchener to search for the missing man, and they at last found the young Indian dead at a point about one and a half miles from Kitchener.

MINE TO START SHIPPING.

Phoenix, Nov. 18.—Phoenix will soon have another shipper on its gradually increasing list of ore producers, preparations now being made to start up the Phoenix Amalgamated, locally known as the War Eagle. A crew of a dozen men have begun installing a motor and remounting the compressor, preparatory to commencing mining operations. The mine force will be put on about December 1.

FOUR SAILORS DROWNED.

San Francisco, Cal., Nov. 19.—Four men, comprising the crew of the sea-going tug Sea Prince, were drowned last night when the British steamer Greyhound Castle rammed and sank the tug in the bay off Angel Island. Captain L. L. Langren, master of the Sea Prince, was the only man on the tug that was saved.

The crew—August Elche, engineer; Henry Schmidt, fireman; August Haas, cook; E. Langren, deckhand.

The Sea Prince had a line on the Greyhound Castle and was towing the steamer. The latter was making a strong headway and before the tug could get out of the way the steamer almost cut the Sea Prince in two.

DO YOU WANT TO SAVE \$52.00 A YEAR?

You can save at least this amount every year through purchasing a lot in Monterey Place, and a yearly saving of \$52 means that you will quickly save the price of your lot.

Figure it out this way:

In Monterey Place the tax rate is only 13 mills on the land, and nothing on home or other improvements.

If you owned a city lot assessed at \$1,000, with a house on it valued at \$3,000, you would have paid in 1910 \$65 taxes. On property of the same value in Monterey Place you would have paid only \$13, or a saving of \$52.

This figures out a saving of 80 per cent of your taxes each year, and means that you soon get your lot for nothing.

Or it will pay the car fare of your family for a year, or pay the coal bill, or—oh! there are many ways the most of us could use this \$52 to advantage.

Don't you think it a proposition worth investigating.

And you don't have to "put up" with any inconveniences to take advantage of this great saving.

On the contrary, you may enjoy every advantage of modern conveniences that the city taxpayer has. We already have the sewer on three streets and the water is ready for you, too.

The car will drop you within three minutes' walk of the property, and the car service is the best in the city—so are the cars.

Within six weeks work will commence on street improvements, cement sidewalks, boulevards, street grading, etc., that will transform the appearance of the property and greatly enhance the values here.

Many lots have been purchased for homesites. We propose building homes for clients who wish to purchase on the instalment plan, and spring is going to witness remarkable changes in Monterey Place.

Just look into the future a few months and you'll agree that present prices are most reasonable—that TODAY is the time to secure a lot in Monterey Place.

Remember that you aren't buying a rock pile or a bunch of stumps. You get the very finest soil, richly fertilized and plowed this fall.

AMONG THE CHURCHES

PRESBYTERIAN.

First Church.

Interesting Lecture—Under the auspices of the First Presbyterian Club, R. S. Day gave a very interesting and instructive lecture on Canterbury cathedral last Monday evening. There was a large attendance of members and friends, and the lecture was very much appreciated. A very hearty vote of thanks was tendered Mr. Day. On Monday next a good programme has been prepared for the meeting of the club, and the members will cordially welcome any who may care to attend. Thankoffering—On Wednesday afternoon last the members of the Ladies' Aid Society and Women's Missionary Society met at the residence of Rev. Dr. Campbell to open the Thank-offering Banks which have been in the hands of the ladies for the past year. This means had been adopted to secure needed funds for the organization, instead of the usual means of obtaining money, and the result fully justified the ladies in their choice. The banks yielded a very substantial amount, and all were very gratified at the amount thus contributed to the church funds.

St. Aidan's.

Sale of Work—The Ladies' Auxiliary of St. Aidan's Presbyterian church had a most successful sale of work in the Temperance hall, Mt. Tolmie, on Friday last. The various stalls were artistically decorated and laden with useful and fancy articles, which found ready purchase among the numerous buyers. The refreshment committee were kept busy serving afternoon tea to the ladies and gentlemen. The fancy work stall was in charge of Miss McCrae and Miss Richardson. The plain work was shown by Mrs. Collins and Miss Fetherstone. Mrs. F. Todd had charge of the flower stall; Miss Laing and Mrs. Lewis attended to the fish pond, while Mrs. J. Haynes had charge of the candy stall. In the evening a large and appreciative audience listened to a good musical programme given by city and local talent, after which refreshments were served and the remainder of the goods were sold by auction. The proceeds amounted to \$161. The ladies desire to extend their thanks to all who so generously helped to make the sale a decided success.

REFORMED EPISCOPAL.

Church of Our Lord.

Sunday Services—The pastor, Rev. T. W. Gladstone, will conduct both services to-morrow. In the morning his subject will be "The Parable of the Rich Fool," and in the evening, "Can Two Walk Together Unless They Be Alike." Anniversary Service—On Sunday, November 27, anniversary services will be held in the church when Rev. A. deB. Owen, of New Westminster, will conduct the services. Rev. T. W. Gladstone will preach anniversary services in the Reformed Episcopal church in New Westminster on that day.

CONGREGATIONAL.

First Church.

Congregational Singing—In connection with the Young People's Society meeting next Monday H. J. Pollard, musical director of the city schools, will give an address on "Congregational Singing." Mr. Pollard is an expert along the line of his subject, and the address will arouse considerable interest. The young people cordially invite members of the congregation and visitors to attend the meeting on Monday evening.

Men's Own—The subject for the meeting of the Men's Own next Tuesday evening is a debate entitled, "Municipal or Private Enterprise."

Which Is Best? The meeting promises to be of much interest.

Annual Bazaar—The Ladies' Aid Society will hold their annual bazaar in the lecture room of the church on Wednesday and Thursday next. On Wednesday from 6 to 8 p.m., supper will be served, and the ladies are hoping that the men of the congregation will patronize this part of the affair as well as the general bazaar. The tables are under the following ladies' direction: Plain work, Mrs. Graham; fancy work, Mrs. Brak, Mrs. Williams; fancy work, Miss Howell, Miss Metcalfe, Miss F. Brak; afternoon tea, Mrs. Boorman; candy stall, members of the Y. P. S.; generous goose, Girl Guides. The president of the society, Mrs. Herd, has been working long and hard to make the bazaar a success, and she is looking for the support and patronage of all members of the congregation. There will be an interesting programme of music both evenings of the bazaar.

Anniversary Services—The anniversary services (fifteenth year) will be held on Sunday, November 27, when the pastor will be assisted by Rev. H. C. Mason, of University church. Seattle, Mr. Mason is well known as one of the leading pulpits orators of the coast and his presence in the city should attract large congregations.

METHODIST.

Metropolitan.

Young People's Prayer Service—There was a very good attendance at the prayer service held last Monday evening under the auspices of the Y. M. C. A. in the schoolroom of Metropolitan church. The young people from other churches were present, and the meeting was a most helpful one.

Annual Bazaar—The annual bazaar under the auspices of the Ladies' Guild and Young Women's Club was most successful. The Victoria hall was most beautifully decorated for the occasion, and the stalls were loaded with more than the usual abundance of useful and fancy articles. The feature of the bazaar this year was the very interesting programmes rendered on both Tuesday and Wednesday evenings, the drills given by the young ladies of North Ward school, and of Metropolitan church proving very attractive indeed. The ladies worked exceedingly hard to ensure the success of the event, and are to be congratulated upon the very gratifying returns.

Prayer Services—In connection with the missionary campaign, that is being inaugurated throughout the Victoria district, the pastor, Rev. T. E. Holling, will preach to-morrow morning on the subject, "The Problem of Missions." On Sunday, November 27, Rev. J. A. Wood, of Victoria West, will preach on the subject of missions, and on December 4 the missionary delegation from Toronto will occupy the pulpit. In the morning of that day Rev. C. E. Manning will preach, and in the evening Rev. J. A. Endicott, D.D., missionary from West China, will occupy the pulpit.

Sermon to Young Men—To-morrow evening the pastor, Rev. T. E. Holling, will preach a special sermon to young men. At the close of the service there will be a half hour's song service in the school room, conducted by the members of the Epworth League. The young men of the league will heartily welcome all strangers and visitors to this interesting and home-like feast to the day's services.

Interesting Lecture—On Monday evening next the city health officer, Dr. G. A. B. Hall, will give an interesting lecture on "The Discovery or History of Anaesthesia," under the auspices of the Epworth League. The league will welcome any who desire to hear this lecture and hope to have the room filled. The lecture commences at 8 p.m.

Bible Class Rally—The Young People's Bible class will hold a rally in the league room to-morrow afternoon and invitations have been sent out to all old and new members and those whom it was thought might be likely to join the class. An address will be given by the teacher, Rev. A. E. Roberts, and their will be an interesting programme. All young people who are not attending any other class will be heartily welcome.

Centennial.

Successful Concert—The Men's Bible class of Centennial church held a very successful concert last Tuesday evening. There was a very good programme and the large audience very enthusiastic in their praise of the performers. It was one of the best concerts ever given in the church. Among those taking part were the Misses Palmer, Mrs. Jesse Longfield, Mrs. E. Parsons, Miss Beek, Miss McCachren, Mr. and Miss Davis, P. R. Pomfret, L. A. Young, J. L. Meyers (organist), Miss Beard and Miss Muehler, and J. O. Dunford. A hearty vote of thanks was tendered the performers for their excellent selections. Sunday Services—Rev. A. E. Roberts will preach to-morrow, both morning and evening, the pastor, Rev. A. Henderson, being away in Vancouver preaching anniversary sermons at Wesley church. The subject of Missions will be discussed in preparation for the opening of the missionary campaign throughout the Victoria district.

James Bay.

Week of Prayer—The week of prayer suggested by the evangelistic committee of the Methodist church in Canada was observed in James Bay church this week. The attendance every evening was very encouraging and the meetings of much interest.

Missionary Sermon—To-morrow morning the subject of missions will be brought to the attention of the congregation by the pastor, Rev. A. N. Miller. On Sunday, November 27, Rev. T. E. Holling will address the congregation on the same subject and on December 4 Rev. A. C. Farrell, associate secretary for foreign missions, will preach in the morning and Mr. W. G. Hunt, of Calgary, in the evening.

Organ Concert—There will be a concert on Monday evening next in aid of the organ fund. A very interesting programme has been prepared and it is expected that there will be a large audience.

W. M. S.—The monthly meeting of the W. M. S. will be held at the home of Mrs. Scates, Olympia avenue, on Tuesday afternoon next.

Victoria West.

Young People's Meeting—On Monday evening last a meeting was held for the purpose of discussing the organization of a young people's meeting in connection with the church. After a thorough discussion of the matter it was decided to organize an Epworth League of Christian Endeavor and a meeting will be held next Wednesday to complete the organization.

Ladies' Aid—The Ladies' Aid Society held a very successful afternoon tea at the home of Mrs. McKenzie, McPherson avenue, last Tuesday afternoon. There was a good attendance and a very pleasant social time was spent. The ladies have recently installed a new Gurney range in the kitchen of the paragon and the proceeds of the tea helped to pay for the stove.

BAPTIST.

Emmanuel.

Gramophone Concert—Arrangements have been made for a special gramophone concert in the auditorium of the church on Wednesday, November 23, when some of the finest records obtainable in the world will be heard and an opportunity given the public of hearing the most famous singers and musicians, such as Caruso, Clara Britt, Madame Patti, Calve, Melba, Edward Lloyd, Robert Radford and many others. During the evening the pastor will give a brief exposition of the "Hills of the King" by Tennyson. The admission is free but a collection will be taken.

Sunday Services—The pastor, Rev. William Stevenson, will preach in the morning on "Giving Up All for the Pearl of Existence," and in the evening on "The Ideal Husband."

Church Meeting.

The monthly meeting will be held on Thursday evening.

First Church.

To-morrow's Services.—Pastor Warnick, who has been attending the Western Baptist convention at Winnipeg, will occupy his pulpit again to-morrow morning and evening.

Missionary Address.—At the young people's meeting on Monday evening a missionary address will be given by James Dewar, who spent two years working among the people of Morocco in Northern Africa. The address will be illustrated by a number of lantern views and there will also be a collection of curios on exhibition. A cordial invitation is extended to attend this meeting.

Burnside Mission.—The first services in the new building were held last Sunday afternoon and evening. At the latter service J. W. H. King, B.A., was the preacher. The workers are indebted to Mrs. J. L. McNaughton of First church, who presented the mission with a handsome new pulpit Bible as a token of her appreciation of the work in the mission.

Ladies' Aid.—The members of the Ladies' Aid Society are busy preparing for their first sale of work and proved thoroughly successful and the ladies are anticipating even better things at the coming sale.

LUTHERAN.

Grace Church.

Church Building.—The former pastor and organizer of Grace English Lutheran church, Rev. William C. Drahn, is in the city assisting in the work connected with the completion

of the church building under construction on the corner of Blanchard street and Queen's avenue. He will remain over Sunday to hold the services. Since leaving here Rev. Drahn has been called to act as the general secretary for the Divinity school at Portland, Ore.

JEWISH.

Congregation Emanu-El. Sermon by New Rabbi.—In the synagogue, corner of Blanchard and Pandora, last evening at 8 o'clock, Dr. E. Friedlander conducted the service and delivered a sermon on "Practical Religion." This well-known clergyman is a most eloquent and graceful preacher, and his sermons have always drawn large audiences, especially in Montreal, where he officiated for many years, his popularity extending beyond his own flock, as the presence of a large number of Gentiles each Sabbath amply testified. The doctor came here in response to an unanimous call extended to him by the congregation Emanu-El while he was in New York. A great many of the Jewish residents of Victoria, having known him many years, they naturally feel much gratified to have his valuable services in this city.

MISSIONARY CAMPAIGN.

Methodist Churches to Unite in Services Next Week.

Rev. C. E. Manning, Toronto, missionary secretary of the Methodist church, has been in the city this week making preparations for the three-weeks missionary campaign that is to be held in the Methodist churches of Victoria and vicinity. To-morrow the pastors of the various churches are expected to introduce the subject by preaching missionary sermons. On Sunday, Nov. 27, there will be an exchange of pulpits, the following arrangements having been made, in each case for the morning service: Metropolitan—Rev. Jas. A. Wood. Centennial—Rev. H. S. Hastings. Victoria West—Rev. A. N. Miller. James Bay—Rev. T. E. Holling. Strawberry Vale—Rev. A. E. Roberts.

Sidney—Rev. A. Henderson. On Friday, Dec. 2, a Laymen's Missionary banquet will be given in the Metropolitan school room, when it is expected that 500 men will sit down to the tables. Addresses will be given by Rev. Dr. Endicott of West China; Rev. A. C. Farrell, W. G. Hunt, Calgary, and Rev. C. E. Manning.

On Sunday, Dec. 4, the pulpits will be supplied by the delegation from Toronto, the following arrangements having been made: Metropolitan—Rev. C. E. Manning and Rev. Dr. Endicott. Centennial—Rev. Dr. Endicott and Rev. A. C. Farrell. Victoria West—W. G. Hunt and Rev. C. E. Manning. James Bay—Rev. A. C. Farrell and W. G. Hunt. Sidney—Rev. R. C. Armstrong.

WINDOWLESS ROOMS.

I. N. Phelps-Stokes suggested to the New York City Congestion commission at a hearing recently that to improve conditions in tenement house neighborhoods it would be a good plan to build model tenement houses forty feet deep, leaving a depth of 120 feet in the middle of each 200-foot block to be improved as a playground.

Louis H. Pink said that 32,000 rooms without windows were used for dwelling places in Manhattan and 28,000 such rooms in Brooklyn.

H. C. Carrel, of the American Institute of Architects, Brooklyn Chapter, said:

"More people lose their lives from consumption than from the falling of buildings, and the board of survey should pass upon the fitness of human habitations."

All we ask is for you to let us buy a 50-cent bottle of Psychine (pronounced Si-keen) from your druggist and give it to you free to try.

It has only been within recent years that we have come to really know about the white corpuscles of the blood or the phagocytes and what their function is.

That they are the policemen or scavengers of the body.

Devouring every disease germ that enters the body when they are strong enough or in sufficient numbers.

Or being devoured in turn by these disease germs when inferior in strength.

It has only been within the last few years that scientists have found out that certain herbs strengthen and increase these white corpuscles, or bodily scavengers.

And these herbs largely compose Psychine.

For thirty years Psychine has been strengthening and increasing the white corpuscles of the blood.

For thirty years Psychine has been building up run-down vitality, curing many of apparently hopeless diseases.

We have sold millions of bottles of Psychine in that time.

We have cured hundreds of thousands.

And we have received hundreds of thousands of unsolicited testimonials.

All due to this marvellous power of strengthening and increasing the white corpuscles of the blood.

Here are the diseases in the treatment of which Psychine is indicated.

Here are the diseases of which Psychine has cured many thousand cases:

La Grippe, Bronchitis, Croup, Whooping Cough, Sore Throat, Early Decline, Catarrhal Affections, Catarrh of Stomach, Night Sweats, Poor Appetite, Chills and Fevers, Sleeplessness and Nervous Troubles, After-effects of Pleurisy, Pneumonia and La Grippe.

Now, we don't ask you to take our word for the tremendously beneficial effect of Psychine. Fill out the coupon below, mail it to us and we will give your druggist an order (for which we pay him the regular retail price) for a 50-cent bottle of Psychine to be given you free of cost.

We will undoubtedly buy and distribute in this manner hundreds of thousands.

sands of these 50-cent bottles of Psychine.

And we do that to show our entire confidence in this wonderful preparation.

A confidence that has been based on our 30 years' experience with this splendid preparation, with a full knowledge of the hundreds of thousands of cures it has made.

COUPON No. 70

To the Dr. T. A. SLOCUM, Ltd., 193-195 Spadina Ave., Toronto.

I accept your offer to try a 50c. bottle of Psychine (pronounced Si-keen) at your expense. I have not had a 50c. bottle of Psychine under this plan. Kindly advise my druggist to deliver this bottle to me.

My Name.....

Town.....

Street and Number.....

My Druggist's Name.....

Street and Number.....

This coupon is not good for a 50c. bottle of Psychine if presented to the druggist. It must be sent us—we will then pay the 50c. bottle of Psychine from your druggist and direct him to deliver it to you. This offer may be withdrawn at any time without notice. Send coupon to-day.

Full Text of Report on Goldstream Waterworks System

November 1st, 1910.
To the Mayor and Aldermen of the City of Victoria.

Gentlemen:—
I have made examination of the reservoirs of the Esquimalt Water Works and of the amount of water being used, and beg to report as follows:

1. The amount of water in the reservoirs of the Esquimalt Water Works Company is estimated that there is at present stored in Cabin Pond, Jack Lake and Lakes No. 1, 2 and 3, 794,000,000 gallons of water.

2. The total amount of water that is being used by the B. C. Electric Railway Company is estimated that there is at present stored in Cabin Pond, Jack Lake and Lakes No. 1, 2 and 3, 794,000,000 gallons of water.

3. The number of gallons used by them per day? At the present time there are 151-2 millions used.

4. Also as to Elk Lake as compared with last year? On October 1st, 1909, Elk Lake was 78 inches below high water mark. On October 31st, 1910, it was 61-2 inches below high water mark. On the same dates in 1908 it was 83 inches below high water mark, and in 1907 it was 57 inches below high water mark. The water in 1908 was at its highest in March, being 8 inches below high water mark. In 1909 it was at its highest in February, being 22 inches below high water mark. In 1910 the highest water was in April when it was 4 inches below high water mark. Elk Lake is therefore 15-2 inches higher this year than last year. The lake covers approximately 600 acres and the average depth is approximately fifty feet.

Yours respectfully,
ANGUS SMITH,
City Engineer.

Victoria, B. C., Aug. 3, 1910.
To the Mayor, Aldermen and Members of the Special Water Committee.

Gentlemen:—
Your committee appointed to report upon the proposed construction of the Esquimalt Water Works Company, begs to state that it interviewed the directors and officials connected with the Esquimalt Water Works Company and that the following information was obtained:

Since the report of Mr. Adams made in 1905 the Esquimalt Water Works Co. has made the following additions to its undertaking:

1. 4,781-37 acres of land at Goldstream, etc.
Jack Lake reservoir.
Loon Lake reservoir.
Cross Ditch.
Mountain Lake Ditch.
Japan Gulch reservoir.
Goldstream main pipe line to Victoria West in course of construction.
The directors of the Esquimalt Water Works stated that they would be prepared to recommend to their shareholders the acceptance of an offer of \$1,850,000 for the entire undertaking of the Esquimalt Water Works Company including supplies on hand and the new main from Goldstream, completed and in working order to Arm street, Victoria West.

Further the directors stated that subject to the consent of their shareholders, if the city decided to acquire the property of the company by expropriation under the act of 1909, the company would be willing to accept the arbitration in accordance with the said act and to accept the award of the arbitrators as final and without appeal.

In accordance with the information obtained by your committee the undertaking of the Esquimalt Water Works will include the following:

(a) 12,575-80 acres at Goldstream, 1,281-91 acres at Thetis Lake.
A lot on Victoria arm.

Making a total of 43,857-73 acres, the acreage at Goldstream practically including the whole of the water shed.

(b) Five storage reservoirs having a total capacity of 3,626,000,000 gallons for summer use.

A balancing reservoir at Cabin pond with a capacity of 19,000,000.

Pipe line to the B. C. Electric Company's power house.

Japan Gulch balancing reservoir below the power house with a capacity of 25,000,000, of which about 20,000,000 is available for water supply.

A main from the Japan Gulch reservoir to Arm street, Victoria West.

The pipe for the main to Victoria West consists of Siemens-Martin mild steel main, average diameter 30-1-2 inches, thickness of shell for entire length 5-16 inches, for the straight pipes and 3-8 for the curved and special pipes.

This main has a capacity of 16,000,000 gallons per day with a fall of 22 feet per mile leaving an available head of 220 feet at a distance of 10-1-2 miles from the Japan Gulch reservoir.

The storage capacity at Goldstream can be increased to 22-1-2 million per day at a cost of \$250,000.

At the present time there are 843 services connected with the Esquimalt Water Works system as compared with 483 in 1909.

The revenue for the year ending June 30th, 1910, amounted to \$51,206-83.

Provincial taxes and operating expenses \$10,431-78, leaving a net revenue of \$40,775-05, but hereafter the net revenue will be increased by the saving of some expense items such as the present cost of pumping at Thetis Lake.

In addition to the other supplies after the completion of the main to Victoria West, there will be a stock consisting of about 6,000 ft. of 30-in. main and accessories and about 69,000 ft. of pipes of various sizes for distribution services.

Your committee is informed that when the Victoria West system is connected with the new main the supply of water in the distribution pipes will be doubled and ample for all purposes.

It is expected that the new main will be ready to deliver 15,000,000 gallons in Victoria West before the end of this year.

All of which is respectfully submitted.
(Signed) J. J. SHALLCROSS,
C. F. TODD,
A. M. HANNERMAN.

Memorandum Submitted to the Special Water Committee by J. J. Shallcross, August 29th, 1910.

The following reports have been considered by the committee, and these notes are based thereon:
Report by P. A. Baskley, October 28th, 1910.
Report by Arthur L. Adams, May 15th, 1905.
Supplementary report by Arthur L. Adams, December 23rd, 1907.
Report by Albert E. Ashcroft, April 17th, 1908.
Report by J. Raymur and C. H. Topp, May 9th, 1907.
Report by F. A. Devereux, November 21st, 1907.
Report by G. H. Bryson, December 1905.
Report by J. B. Holdcroft, November 22nd, 1907.
Reports, P. A. Devereux, various dates.
Report by a sub-committee—Messrs. Henderson, Moxton, and Johnston, 1905.
Sundry short reports.

Present Water Situation.
Consumption of water—966,978,306 gallons.
Average per day—2,700,000 gallons.
Consumption, 1908—859,120,000 gallons.
Increase one year, 13 per cent.
Estimated average maximum supply from Elk Lake—876,000,000 gallons.
Average maximum per day (Adams)—2,400,000 gallons.
Consumption in 1909—exceeded average maximum per day—300,000 gallons.
New services during 1909—487.
New services, January to July, 1910—290.

It is quite evident from the above figures that with a daily consumption of 10 per cent. in excess of the maximum daily possibility—assuming that Mr. Adams' estimate of 2,700,000 gallons is correct—the supply is inadequate to increase at the rate of about 10 per cent. per annum, the time has come when the water situation must be faced, and faced with a determination to secure additional supplies without delay.

Last winter there was an exceptionally heavy rainfall which enabled Elk Lake to supply the demands of the summer, but exceptional rainfalls cannot be anticipated every year.

It is not necessary to inquire into an increased supply have been suggested:

1. Increasing the water shed of Elk Lake.
2. Sooko Lake.
3. Purchase of the entire undertaking of the Esquimalt Water Works Company under the provisions of the act of 1909.
4. Purchase of water in bulk from the Esquimalt Waterworks Company under the provisions of the act of 1909.

Elk Lake Extension.
Area of present water shed—5700, of which 1,400 acres are in private hands.
Area of Elk Lake and Beaver Lake, 605 acres.
Range between high and low water without pumping, 8-5 feet.
Average rainfall, 36-47.
Average evaporation from lake 23 inches.
Possible extension of water shed, 2,000 acres (Devereux).

Mr. Devereux points out that an extension of the water shed would not give the same yield per acre as a natural water shed, and that such an artificial water shed could be expected to yield more than about one-third of what the natural water shed would give per acre.

Probable yield from extension, 1,000,000 gallons per day, in order to control the quality of the water it would be necessary to purchase the additional water shed, much of which consists of land of considerable value and to provide additional storage. No trifling increase in the present supply does not justify this expenditure, says Mr. Adams.

It is not necessary to inquire into an increased supply have been suggested:

1. Increasing the water shed of Elk Lake.
2. Sooko Lake.
3. Purchase of the entire undertaking of the Esquimalt Water Works Company under the provisions of the act of 1909.
4. Purchase of water in bulk from the Esquimalt Waterworks Company under the provisions of the act of 1909.

Elk Lake Extension.
Area of present water shed—5700, of which 1,400 acres are in private hands.
Area of Elk Lake and Beaver Lake, 605 acres.
Range between high and low water without pumping, 8-5 feet.
Average rainfall, 36-47.
Average evaporation from lake 23 inches.
Possible extension of water shed, 2,000 acres (Devereux).

Mr. Devereux points out that an extension of the water shed would not give the same yield per acre as a natural water shed, and that such an artificial water shed could be expected to yield more than about one-third of what the natural water shed would give per acre.

Probable yield from extension, 1,000,000 gallons per day, in order to control the quality of the water it would be necessary to purchase the additional water shed, much of which consists of land of considerable value and to provide additional storage. No trifling increase in the present supply does not justify this expenditure, says Mr. Adams.

It is not necessary to inquire into an increased supply have been suggested:

1. Increasing the water shed of Elk Lake.
2. Sooko Lake.
3. Purchase of the entire undertaking of the Esquimalt Water Works Company under the provisions of the act of 1909.
4. Purchase of water in bulk from the Esquimalt Waterworks Company under the provisions of the act of 1909.

Elk Lake Extension.
Area of present water shed—5700, of which 1,400 acres are in private hands.
Area of Elk Lake and Beaver Lake, 605 acres.
Range between high and low water without pumping, 8-5 feet.
Average rainfall, 36-47.
Average evaporation from lake 23 inches.
Possible extension of water shed, 2,000 acres (Devereux).

Mr. Devereux points out that an extension of the water shed would not give the same yield per acre as a natural water shed, and that such an artificial water shed could be expected to yield more than about one-third of what the natural water shed would give per acre.

Probable yield from extension, 1,000,000 gallons per day, in order to control the quality of the water it would be necessary to purchase the additional water shed, much of which consists of land of considerable value and to provide additional storage. No trifling increase in the present supply does not justify this expenditure, says Mr. Adams.

It is not necessary to inquire into an increased supply have been suggested:

1. Increasing the water shed of Elk Lake.
2. Sooko Lake.
3. Purchase of the entire undertaking of the Esquimalt Water Works Company under the provisions of the act of 1909.
4. Purchase of water in bulk from the Esquimalt Waterworks Company under the provisions of the act of 1909.

Elk Lake Extension.
Area of present water shed—5700, of which 1,400 acres are in private hands.
Area of Elk Lake and Beaver Lake, 605 acres.
Range between high and low water without pumping, 8-5 feet.
Average rainfall, 36-47.
Average evaporation from lake 23 inches.
Possible extension of water shed, 2,000 acres (Devereux).

Mr. Devereux points out that an extension of the water shed would not give the same yield per acre as a natural water shed, and that such an artificial water shed could be expected to yield more than about one-third of what the natural water shed would give per acre.

or this portion of the lake entirely eliminated as a possible source of supply. In the latter event the area of the Sooko Lake water shed would be reduced, but even on the basis of an area of 12,000 acres the yield of the Sooko Lake water shed is not greatly in excess of that of Goldstream, which contains 10,050 acres—more than 1,125 feet above sea level, presuming that the rainfall of Sooko is equal to that of Goldstream, which has not been proved.

Mr. Losse estimates that the total amount of water available per annum from Sooko Lake water shed is 10,165,250,000 gallons, which would give an average of about 27-1/2 million gallons per day, presuming all was collected. Report by P. A. Baskley, October 28th, 1910.

Report by Arthur L. Adams, May 15th, 1905.
Supplementary report by Arthur L. Adams, December 23rd, 1907.
Report by Albert E. Ashcroft, April 17th, 1908.
Report by J. Raymur and C. H. Topp, May 9th, 1907.
Report by F. A. Devereux, November 21st, 1907.
Report by G. H. Bryson, December 1905.
Report by J. B. Holdcroft, November 22nd, 1907.
Reports, P. A. Devereux, various dates.

Mr. Devereux points out that an extension of the water shed would not give the same yield per acre as a natural water shed, and that such an artificial water shed could be expected to yield more than about one-third of what the natural water shed would give per acre.

Probable yield from extension, 1,000,000 gallons per day, in order to control the quality of the water it would be necessary to purchase the additional water shed, much of which consists of land of considerable value and to provide additional storage. No trifling increase in the present supply does not justify this expenditure, says Mr. Adams.

It is not necessary to inquire into an increased supply have been suggested:

1. Increasing the water shed of Elk Lake.
2. Sooko Lake.
3. Purchase of the entire undertaking of the Esquimalt Water Works Company under the provisions of the act of 1909.
4. Purchase of water in bulk from the Esquimalt Waterworks Company under the provisions of the act of 1909.

Elk Lake Extension.
Area of present water shed—5700, of which 1,400 acres are in private hands.
Area of Elk Lake and Beaver Lake, 605 acres.
Range between high and low water without pumping, 8-5 feet.
Average rainfall, 36-47.
Average evaporation from lake 23 inches.
Possible extension of water shed, 2,000 acres (Devereux).

Mr. Devereux points out that an extension of the water shed would not give the same yield per acre as a natural water shed, and that such an artificial water shed could be expected to yield more than about one-third of what the natural water shed would give per acre.

Probable yield from extension, 1,000,000 gallons per day, in order to control the quality of the water it would be necessary to purchase the additional water shed, much of which consists of land of considerable value and to provide additional storage. No trifling increase in the present supply does not justify this expenditure, says Mr. Adams.

It is not necessary to inquire into an increased supply have been suggested:

1. Increasing the water shed of Elk Lake.
2. Sooko Lake.
3. Purchase of the entire undertaking of the Esquimalt Water Works Company under the provisions of the act of 1909.
4. Purchase of water in bulk from the Esquimalt Waterworks Company under the provisions of the act of 1909.

Elk Lake Extension.
Area of present water shed—5700, of which 1,400 acres are in private hands.
Area of Elk Lake and Beaver Lake, 605 acres.
Range between high and low water without pumping, 8-5 feet.
Average rainfall, 36-47.
Average evaporation from lake 23 inches.
Possible extension of water shed, 2,000 acres (Devereux).

Mr. Devereux points out that an extension of the water shed would not give the same yield per acre as a natural water shed, and that such an artificial water shed could be expected to yield more than about one-third of what the natural water shed would give per acre.

or this portion of the lake entirely eliminated as a possible source of supply. In the latter event the area of the Sooko Lake water shed would be reduced, but even on the basis of an area of 12,000 acres the yield of the Sooko Lake water shed is not greatly in excess of that of Goldstream, which contains 10,050 acres—more than 1,125 feet above sea level, presuming that the rainfall of Sooko is equal to that of Goldstream, which has not been proved.

Mr. Losse estimates that the total amount of water available per annum from Sooko Lake water shed is 10,165,250,000 gallons, which would give an average of about 27-1/2 million gallons per day, presuming all was collected. Report by P. A. Baskley, October 28th, 1910.

Report by Arthur L. Adams, May 15th, 1905.
Supplementary report by Arthur L. Adams, December 23rd, 1907.
Report by Albert E. Ashcroft, April 17th, 1908.
Report by J. Raymur and C. H. Topp, May 9th, 1907.
Report by F. A. Devereux, November 21st, 1907.
Report by G. H. Bryson, December 1905.
Report by J. B. Holdcroft, November 22nd, 1907.
Reports, P. A. Devereux, various dates.
Report by a sub-committee—Messrs. Henderson, Moxton, and Johnston, 1905.
Sundry short reports.

Present Water Situation.
Consumption of water—966,978,306 gallons.
Average per day—2,700,000 gallons.
Consumption, 1908—859,120,000 gallons.
Increase one year, 13 per cent.
Estimated average maximum supply from Elk Lake—876,000,000 gallons.
Average maximum per day (Adams)—2,400,000 gallons.
Consumption in 1909—exceeded average maximum per day—300,000 gallons.
New services during 1909—487.
New services, January to July, 1910—290.

It is quite evident from the above figures that with a daily consumption of 10 per cent. in excess of the maximum daily possibility—assuming that Mr. Adams' estimate of 2,700,000 gallons is correct—the supply is inadequate to increase at the rate of about 10 per cent. per annum, the time has come when the water situation must be faced, and faced with a determination to secure additional supplies without delay.

Last winter there was an exceptionally heavy rainfall which enabled Elk Lake to supply the demands of the summer, but exceptional rainfalls cannot be anticipated every year.

It is not necessary to inquire into an increased supply have been suggested:

1. Increasing the water shed of Elk Lake.
2. Sooko Lake.
3. Purchase of the entire undertaking of the Esquimalt Water Works Company under the provisions of the act of 1909.
4. Purchase of water in bulk from the Esquimalt Waterworks Company under the provisions of the act of 1909.

Elk Lake Extension.

FREE PASSAGE FOR
AMERICAN VESSELSPacific Coast Congress Passes
Resolution Regarding the
Panama Canal

San Francisco, Cal., Nov. 18.—A resolution calling for the free passage of all American vessels from an American port to an American port through the Panama canal was adopted at the Pacific Coast Congress here yesterday.

Other resolutions fraught with importance to the entire nation but particularly to the states west of the Rocky Mountains were adopted.

Among these was one calling for the provision of twenty-five additional regiments of infantry to the coast divisions of the United States army and corresponding increases in the artillery and cavalry forces. If it meets with the approval of Washington, this will mean almost a doubling of the present coast defence, as the present force consists of thirty-six regiments.

The project of the construction of a highway through the Pacific States from Canada to Mexico was endorsed. The congress approved the selection of San Francisco as the site for the Panama-Pacific fair in 1915 and adopted a resolution commending San Diego for its attitude toward San Francisco's claims for the exposition after it had begun plans to hold the fair in San Diego.

U. S. OFFICERS ENTERTAINED.

Guests at Banquet Given by the Pilgrims in London.

London, Nov. 19.—The Pilgrims' society yesterday entertained the officers of the American fleet, when many distinguished personages were present.

There were thirty-seven officers in full uniform. Harry E. Brittain, secretary of the Pilgrims' society, read a telegram by the president from Lord Roberts, who said:

"I offer my warmest welcome to Admiral Murdock and the officers of the United States navy, and express my sincere regret at not being able to do so in person."

Welcoming the visitors, Admiral Lambton made a speech along professional lines. He declared the theory that the system in ships and guns was the chief factor in the strength in a navy. He described how much easier it was for torpedo boats commanded by daring men to sink a ship that was 600 feet long than to sink one measuring 400 feet.

Sir Hedworth complimented the American navy on the trip of the fleet around the world, and incidentally paid a high tribute to the Japanese nation and navy.

Responding, Admiral Murdock described the border line between the United States and Canada as the longest in the world and said peace had been preserved on it for ninety-six years without resort to armaments. Referring to the settlement of the Newfoundland fisheries dispute, the American admiral said that arbitration between the nations was becoming a habit.

REVOLUTIONISTS ACTIVE.

Believed to Be Preparing For Rebellion in Mexico.

El Paso, Texas, Nov. 18.—Inability to learn the whereabouts of a band of sixty heavily armed Mexicans, seen yesterday on the Mexican side of the Rio Grande, opposite the town of Marathon, 200 miles from here, has led to the belief that a raid on Mexico, and not on United States towns, is being contemplated by the revolutionists.

Scouts who were hastily sent out at midnight patrolled the Rio Grande for miles without sighting a single armed Mexican, and early to-day returned to Marathon, where the citizens had been assembled all night under arms fearing an attack.

Sheriff Walton, of Alpine county, Texas, who is investigating the reports, said that there could be no doubt but that the Mexicans were seen last night, but what became of them is a mystery. He gave it as his belief that revolutionists were active and were using the American-Mexican excitement to cover up their movements. Reports of other armed bands all along the border lend color to the revolutionary rumors, and it is predicted here that a rebellion will be in full swing before the end of the week.

INCENDIARY FIRES.

Walla Walla, Wn., Nov. 19.—Four fires of incendiary origin kept the fire department busy during the early hours yesterday, and the damage from the various blazes will aggregate nearly \$10,000.

The biggest fire occurred at the St. Paul's Episcopal church, which badly damaged the interior of the expensive edifice and totally destroyed the pipe organ. The other fires destroyed a small residence and two barns.

All the fires occurred between three and three-thirty. The police are busy on the cases.

CHARGE AGAINST COUNT.

Chicago, Nov. 19.—Count de Beaufort, whose wordy battles with his father-in-law, Martin Kilgallen, the steel magnate, have been amusing Chicago for the past week, was arraigned in the police court yesterday on a charge of disorderly conduct growing out of the fracas at his home here, which rumor said, culminated when the count threw his wife down stairs.

De Beaufort pleaded not guilty to the charge and demanded a jury trial, which was granted.

Quality

The Best
Quality
and
the Best
Prices
Is What
We Give

GOOD
ADVICE

We can sell our Furniture at the most reasonable prices. Why? Because we buy in such large quantities that the factories we deal with give us special prices. We never buy a FEW tables and chairs. We always buy our furniture in carloads. Now, a carload of furniture is a fairly big order for one factory, and that factory gives us a fairly big discount for our big order. We get the very best quality of furniture that is on the market. Our store was not always so big as it is to-day. A flower has to grow from a seed and it is just the same way with a store. At one time our store was very small, but it kept on growing, not all at once, but gradually, till it is one of the largest stores of its kind in this "Great West." The flower requires attention and care if you want it to grow—it is the same with a store. We had to give our business every attention. We satisfied our customers. We gave them the best quality of goods. We gave them the most reasonable prices and we always did what was right by them, so this store grew bigger and bigger every day, every week, every year till it became a great Big Store, a substantial store, a store that people could depend on. But this store of ours has not stopped growing. Oh, no! it is still growing and going to grow. We still keep the good quality at the same reasonable prices and we treat our patrons, good, fair and square. When we tell you about our new arrivals in our advertisement you can depend upon it, they are new arrivals and well worth having a look at. We take the greatest care in the selection of our goods and when we buy we don't buy for ourselves—we buy for you. This is no-doubt the store to deal with. If you want to get fair, good, honest treatment, you can rest assured you are never being robbed. Every article you buy in our store you are getting 100 CENTS worth of value for your \$1.00. Ask any of your friends (who deal with us) about our store, and see if our little bit of good advice is not so.

The Burnside Rd. Car Line

The official announcement of the B. C. Electric Railway Co. with regard to the Burnside Road car-line will act as a stimulus to property values not only along the Burnside Road, but throughout the whole Northern section of the city, and the Saanich Arm. Think what it means. The amount of traffic the Burnside Road will have when this car-line is running up to Deep Cove. The announcement of the Hillside Avenue car-line will most likely be made at an early date. The latter line should eventually run out to Cadboro Bay. Also the Douglas Street line should also be extended. Again think what this means. It means that the traffic of the Northwestern, Northern and the Northeastern parts of the city will all be drained on to Douglas Street, and that the vicinity of the Fountain will be a very busy junction. In fact, many shrewd investors predict that the hub of the city will in a few years be at the Fountain.

WE OFFER WIDE-AWAKE INVESTORS PROPERTIES IN DISTRICTS THAT WILL BENEFIT MOST FROM THE ABOVE DEVELOPMENTS

Douglas Street

- 56 x 110 FEET, close to Queen's Avenue. Vacant. Price **\$8,000**
- 60 x 90, WITH FINE MODERN HOUSE. Lane at side and rear. South of the Fountain. Renting at \$25 per month. Price **\$8,400**
- CLOSE-IN CORNER, Douglas Street, 100 x 100 feet, renting at \$70 per month. Price **\$30,000**
- 127 FEET FRONTAGE, close to the Fountain, with large house, well rented. This property could be cut into three large lots. Price **\$10,000**
- 60 x 110 FEET, South of Queen's Avenue, with building. Price **\$15,000**
- CORNER, SOUTH OF QUEEN'S, 48 x 135, revenue producing. Price **\$20,000**
- CORNER, 70 FEET, frontage on Douglas Street, close to the Fountain, revenue producing. Price **\$8,000**
- 42 x 110 TO LANE, with house renting at \$25 per month. Price **\$8,000**

Burnside Road

- ONE-THIRD OF AN ACRE, close to Douglas Street. The cheapest property on Burnside Road. Price **\$1,000**
- VACANT LOT, 60 x 120, between Alpha and Delta. Price **\$650**
- CORNER, CLOSE TO DOUGLAS STREET, 122 feet on the Burnside Road, by 144 feet on intersecting street. Price **\$1,575**
- DOUBLE CORNER, 50 x 136. Price **\$1,200**

Hillside Avenue

- FINE CORNER, 102 x 132, with three houses, renting at \$55 per month. Price **\$7,000**
- DOUBLE CORNER, one of the best on this street, 100 x 120 feet. Vacant. Price **\$3,000**
- SIX-ROOM HOUSE, modern, lot 55 x 130, half a block off Douglas Street. Price **\$3,500**

Acreage

Crossing the Line

Ceremonies of H. M. C. S. Rainbow

Among the traditional customs of British naval and mercantile service men probably none is older, more famous or more amusing in character than the initiation of greenhorns crossing the line for the first time. Originating far back in the early days of world-wide voyages, and founded upon certain scraps of mythology which have lost none of their charm by such changes as they have suffered in sea-faring versions, the ceremonies attending the visit of Father Neptune at the equator are now preserved only by occasional performance. Steam, annihilator of time and distance, has commercialized shipping to such an extent that even on the fast-disappearing windjammer the superstitious, fun-loving seaman of fifty or sixty years ago

Welcome to all—old men and squeaky boys, New to the ocean and all of ocean's joys. This is the first Canadian ship I've met; In years to come I never shall forget How first of all the Rainbow sailed these waters, Forerunner of the fleets of fair Britannia's daughters. Allow me to present my consort and my court And—as the weather's hot—we'll cut things short. I hope that you'll deliver up to me and mine All those good folks who've not yet crossed the line. When he had finished reading there appeared from apparently nowhere a body of policemen, whose duty it was

"CROSSING THE LINE" ON H. M. C. S. RAINBOW.

is a rare type. Likewise the entertainments with which the sailor was wont to while away his idle time on long and monotonous voyages are rapidly fading into a past that daily presents a more romantic perspective. In the navy, where tradition still lives and is fostered for the good of the service, "crossing the line" is still on many occasions celebrated in the good, old-fashioned way and on H. M. C. S. Rainbow, first of the Canadian naval vessels to sail from north to south latitudes and first of the fleet to come to the Pacific, there are many men and boys who remember their first crossing. The first intimation that the tyros aboard the cruiser had of the "treat" in store for them was a few hours before the Rainbow slid across the imaginary line which traces the track of the sun around the globe. Excitement was rife among the men who knew and the green horns saw with some misgivings the erection of an immense tarpaulin tank in the waist of the vessel. Their

to bring before Father Neptune such unfortunates as could not truthfully claim to have crossed the line. One by one the tyros were discovered and dragged before the court. Solemnly the King of the Sea asked each if he had ever before crossed the equator and, on receiving a negative answer, Neptune busily stropped a huge wooden razor. Two policemen forced the novice into a chair and held him fast. Another lathered his face with a compound of soap and sticky substances from a big bucket, laying the lather on thickly and not forgetting to stuff any protuberances. The razor scraped the lather off swiftly and none too gently and then, in the fashion of Fleet street's famous barber, Sweeney Todd, an attendant policeman tipped the chair backwards precipitating the victim into the tank. Here four husky seamen, masquerading as "bears," ducked him and splashed him until by sheer force he fought his way to the upper deck. Then, when liberty seemed within his

"SPLASH!" INITIATING THE GREEN HANDS.

anticipation did not assume a more pleasant character when they were told to put old clothes on and to wear their sunniest smile. Father Neptune came aboard just as the cruiser crossed, and an old and weedy denizen of the deep, wearing an immense gold crown, bearing a questionable trident and attended by a train of submarine dignitaries such as no diver would care to meet while at work. The Queen of the Sea, consort of the sea king, was remarkable on account of a huge mop of golden hair, which resembled oakum more than anything else and certainly smelt like that indispensable seaman's friend. At the head of the companion ladder leading to the tarpaulin tank, now filled with warm salt water, the court of curious beings assembled and Neptune read the following address, composed by a member of the ship's company, to Capt. Stewart: "Hail to the Rainbow and all her merry crew; reach, a watchful policeman black-leaded his face and pushed him back into the tank. Not until he had a second time escaped his tormentors did they allow him to go in peace. Of course there was really no rough play and nobody enjoyed himself better than the initiated. For at least a week the event kept the crew in fine spirits and full of merriment. The Rainbow crossed the line again before the voyage ended, but there were no novices and consequently Neptune did not come again. Perhaps he would have had a hard time to explain how he had journeyed from the Atlantic to the Pacific as swiftly as the cruiser. Such amusements as the one described, and the accompanying cuts show the nature of the fun, help to make life in the navy a never-too-old story for the bluejacket. Moreover they inspire 'mute, inglorious Miltons' to action, as 'witness the line,' 'forerunner of the fleets of fair Britannia's daughters' with its Imperial sentiment and unconscious alliteration.

Fresh Air in Winter

In winter, it is hard to get fresh air in certain rooms. Some rooms in a house are usually colder than others, and if you open the windows it is hard again to heat the room properly. If you keep the windows closed you don't get fresh air; if you keep them open you cannot quickly reheat the room. The

PERFECTION
SMOKELESS
OIL HEATER

Absolutely smokeless and odorless solves the difficulty. You can leave the windows in a room open all day in winter, and when you close them apply a match to a Perfection Oil Heater and heat the room to any temperature you desire in a few minutes.

The Perfection Oil Heater is finished in Japan or nickel. It burns for nine hours. It has a cool handle and a damper top. It has an automatic locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that the wick can be quickly cleaned. An indicator always shows amount of oil in the font. The filler-cap does not need to be screwed down. It is put in like a cork in a bottle, and is attached to the font by a chain. The burner body or gallery cannot become wedged, because of a new device in construction, and consequently, it can always be easily unscrewed in an instant for reworking. The Perfection Oil Heater is strong, durable, well made, built for service, yet light and ornamental.

Dealers Everywhere. If not at yours, write for descriptive circular to the nearest agency of the
The Imperial Oil Company, Limited.

New Calendar Shows Whole
Fleet of Sixty-Seven
Steamships

There is a suggestion of pride in the
fine new steamship calendar for 1917,
issued by the C. P. R. Company, a
copy of which has been received by
Capt. J. W. Troup, manager of the
B. C. coast service. In prominent type
it announces that the C. P. R. em-
ploys 75,000 people and owns and con-
trols "67 steamships, over 16,000 miles
of railroad and 16 hotels," and to back
up the first part of this statement a
composite fleet showing every vessel
at present under the red-and-white-
squared flag in most faithful detail is
lithographed in true colors.

In the foreground the Atlantic fleet,
led by the Empress of Britain and
Empress of Ireland, are prominently
displayed, and behind them, in the
front-rank of the steamships, which
are all under way, are the beautiful,
yacht-like Pacific Empresses. The re-
mainder of the C. P. R. fleet is grouped
in excellent perspective, so that a keen
eye can identify even the smallest of
the vessels.

It is, however, the list of steamships
showing the services they are employ-
ed on that is most interesting, as it
reveals the little known fact that out
of a fleet of 68 vessels (to add the
second Princess, Adelaide, recently or-
dered, to the list, no less than 45 are
employed on river, lake, coastwise
and trans-Pacific steamship sailing in
British Columbia waters. While the
total tonnage of the Atlantic fleet is
much greater than that of the Pacific
fleet, the number of vessels flying the
C. P. R. flag and entering B. C. ports
is almost exactly twice that of the
vessels employed on the Atlantic and
Great Lakes.

Modern electric hoists are so de-
signed that the speed varies with the
load.

ASQUITH'S CARRIAGE UPSET BY STUDENTS

After Being Denuded of Fur-
nishings Was Thrown Into
Dock at Aberdeen

The singular tradition among Scot-
tish undergraduates to render almost
inaudible the address of their lord rec-
tor and to engage in destructive mis-
chief was again illustrated during Mr.
Asquith's visit to Aberdeen Univer-
sity recently. So badly did the young
men behave that he threatened to stop
his address. At the close the carriage
in which he was to be drawn was
smashed and sunk in the harbor.

The lord rector is practically an
honorary post to which the students
elect distinguished men. The only real
duty is to deliver a lengthy address.
In older days it was the habit to in-
terrupt that address not merely by
jokes but by rough horseplay and even
by stertorous instruments such as a
ship's siren. Public halls were dam-
aged, and once before at Aberdeen the
carriage of a lord rector (the Marquis
of Huntly) was smashed and tilted into
the harbor. When the students were
entrusted with the discipline of the
gathering a slight improvement was
noticeable, but the recent outbreak was
a return to the old practices, which
were, however, confined to a small
number of youths.

Both before and during Mr. Asquith's
address, which was delivered in the
great hall of the university, there was
much noise and boisterous behavior, in-
cluding the practice of passing-up. This
consists in wrenching individual stu-
dents from their seats and passing
them on outstretched hands above the
benches. At one stage Mr. Asquith
threatened, "If you don't stop I will
stop." The principal (the Rev. George
Adam Smith) intervened: "I am sure
the bulk of the students want to hear
the rector out," and this was loudly
cheered. One student in a girl's dress
sprang on a bench, unfurled a yellow
flag, and blew a tin horn during Mr.
Asquith's opening period. He was
seized and expelled amid uproarious
merriment.

But the worst followed the end of the
address. There was a rush of students
to the quadrangle, where a landau was
in waiting for Mr. Asquith and the
principal. It had been arranged that
the students should drag the carriage
from the university to the principal's
residence, two miles away. The landau
was immediately seized by the bolder
spirits, who attached ropes and
dragged it out into the street. Fully a
score jumped in and on to the box, but
were at once subjected to a fusillade
of green peas by the other students.
They retaliated by stripping the vehicle
of its fittings and using them as am-
munition.

In a melee the landau was upset but
righted again. Amid a fusillade of
peas and fittings the howling horde
continued their journey. One of the
wheels became detached, but the occu-
pants still retained possession and
raised the hoods to shelter themselves
from the missiles. Presently the hoods
too were wrenched away and used as
ammunition.

At this stage Mr. Asquith and the
principal appeared at the entrance to
the university. The dilapidated car-
riage was brought into position for
them, but they refused to take their
seats, and a motor-car was put at
their disposal. They drove off amid
enthusiastic cheering.

Left with the denuded carriage, the
students proceeded with the work of
demolition. Minus a rear wheel, it was
dragged into the street, where it was
upset. In this inverted position it was
hauled for some distance, till in an at-
tempt to right it the remaining rear
wheel became detached. Heading
down a steep street leading to the
harbor the excited youths rushed,
the occupants one by one dropping off.
When the quayside was reached the
carriage was a mass of wreckage. With
a wild whoop it was toppled into the
dock, and although several attempts
were made to recover it the ropes gave
way. The students wound up their es-
cape with a tug-of-war.

Later in the day the university sena-
tus held an inquiry, and sixteen stu-
dents were ordered to defray the cost

of the carriage to the amount of about
£80.

of U. S. Government's
Neglect

For years past the cry of shipping men concerned in the Alaska trade, both from Puget Sound, San Francisco and British Columbia ports has been for more and better lights and other aids to navigation in American waters up north. The numerous disasters of recent years in Alaskan waters, it is claimed, were mainly attributable to the lack of proper guiding marks and safeguards to shipping and scarcely a week passes that is not marked by some putery in the shipping columns of coast papers. Comparison with the splendidly lighted waters of British Columbia is lately being resorted to as a reason why the U. S. government should do its duty to shipping on the Pacific coast.

On Thursday the Seattle Post-Intelligencer published an article on this subject, saying in part: "Alaska is a neglected country. For years efforts have been made to provide sufficient light-houses, buoys and beacons to mark rocks, reefs and turning points throughout the inside passages of Southeastern Alaska, along the outside coast, and in the waters of Prince William sound, Resurrection bay and other places in South Central and Western Alaska. While much has been accomplished, shipping men say, much remains to be done to safeguard the many vessels now operating in these waters."

"Marine transportation in Alaska it is argued, has passed the experimental stage and its rapid growth warrants immediate action by congress. "British Columbia is better equipped with these navigation aids than Alaska, notwithstanding the greater industrial and commercial development of the latter territory."

What Other People Think

SOOKE LAKE SCHEME.

To the Editor:—In reading the proceedings of the city council at last Monday night's meeting dealing with the joint water committee's report with a view to having it published in the newspapers, I note that reference was made by Ald. Mable to the minority report on Sooke lake. He doubted if all the facts were shown in the Sooke lake reports; in fact, he believed the facts were conspicuous by their absence.

As chairman of that committee, I take exception to this, and challenge Ald. Mable and those of the council who believe as he does, that there were more facts in our report than there were in the majority report; and if they will meet us any evening after 6 o'clock we will be glad to show them our figures, and the prices of all material; and the quotations on the goods. Our estimate on the tunnel was higher than a contractor right here would do it for.

The majority report was not taken from any outside source, nor did they have any engineer's report, but simply took the figures from the owners and built it into a glowing report that is contradicted by two or three engineers, who consider it misleading. If you are going to buy an article you do not take the seller's word for everything, but make inquiry if you have not the knowledge yourself. None of that committee were engineers. The committee on Sooke lake took outside advice. What we could not understand or figure out for ourselves we submitted to experts; and I might state here, just to show that we were pretty near the facts in our report, Ald. Mable and a majority of the council to the contrary notwithstanding, we received a letter two or three days after submitting our report from an engineer in good standing stating that he had a responsible construction company behind him willing to undertake this work and turn it over to the city as a going concern, guaranteeing to develop 5,000 h. p. at the water motors and a delivery of 10,000,000 gals. daily at Smith's Hill reservoir, with provision for an additional quantity at any time, all for a fixed amount which we think will not be more than the Esquimalt Water Co.'s holdings will cost before we get the pipe into the reservoir at Smith's Hill, since it is very uncertain what the actual price will be. The Sooke lake scheme possesses the advantage of providing us with more than double the horse power generated by Goldstream, and we would further be connected with an inexhaustible water supply for all time. It being the case that a responsible company would make such an offer without competition, what would be the result if the council asked for tenders for the construction of the Sooke lake works? I think it would be found that our figures are founded on facts, despite the public statement by an alderman to the contrary. I honestly believe he never looked into it. Our figures re power are borne out by Mr. Moore's report, and also by the engineer I have mentioned as having a construction company behind him ready to undertake and carry out the work, but we did not have the figures of either of these parties before us when compiling our report.

Now, Mr. Editor, I had no idea whatever of writing to the papers on this subject, because I believed the committee had completed their work and that the question was now up to the property owners to do their part; but when Ald. Mable made such a bold statement in public, and the majority of the council seemed to agree with him, it was more than I could stand, and now put the matter before the public for the benefit of the committee. We are willing to have our

report.

I consider the majority of the committee and the council have done their cause more harm than good by withholding the report on the Sooke lake scheme from publication along with the other, as it makes it appear that they are afraid to have the public fully enlightened on this all-important matter.

In closing, I want to say that I do not desire to enter into a newspaper controversy because I have not the time; but in my humble opinion if the people vote for taking over the Esquimalt Company's holdings they will some day see their mistake.

We have Mr. Keene's permission to publish his letter, if you wish to do so.

CITY OF VICTORIA

A complete list of Local Improvement Works, authorized by Bylaw, from time to time, will be found posted on the Bulletin Board at the main entrance to the City Hall.

A BY-LAW

A By-law to enable the Corporation of the City of Victoria to borrow the sum of \$700,000.00 or such amount as may be necessary for the purchase of the Esquimalt Water Works Company and the utilization thereof by the City of Victoria, by means of either registered debenture stock, or by debentures payable to Bearer.

WHEREAS the Corporation of the City of Victoria owns the water works property and system under which the citizens are supplied;

AND WHEREAS by the "Water By-law, 1909," No. 603, of the By-laws of the said Corporation, a frontage tax is assessed and charged upon the owners of lots or parts of lots in the City of Victoria in, through or past which a main water pipe of four inches in diameter, or over, shall run, and certain rates, rentals and charges are, by the said By-law, fixed and levied and made payable for the supply of water within and without the City;

AND WHEREAS the following sums have heretofore been specially charged upon water rates and charges:

1906 under By-law No. 491, \$17,000, repayable in 10 years.

1907 under By-law No. 507, \$8,000, repayable in 10 years.

1907 under By-law No. 524, \$5,000, repayable in 10 years.

1909 under By-law No. 615, \$125,000, repayable in 50 years.

Total \$155,000.

Interest on all above loans at 4% (four per cent). The total of annual interest and sinking fund being \$9,417.75, no part of which is in arrears.

AND WHEREAS for the purpose of extending the present Water Works system of the City of Victoria, it has been found necessary to take, appropriate and purchase the lands, premises, waters and the whole undertaking of the Esquimalt Water Works Company;

AND WHEREAS by the provisions of the Victoria City Water Works Act, Amendment Acts, 1909, Section 2, it is the duty of the Water Commissioner to first make an offer of purchase of not less than \$700,000.00, and in case the Company decline the same, to proceed to take, appropriate and purchase the said lands, premises, waters and undertaking by means of arbitration as set out in the Corporation of the Victoria Water Works Act, 1873, and all amendments thereto.

AND WHEREAS the estimated value of the water works system and property and waters is one million, four hundred and seventy-nine thousand, one hundred and fifty-seven and sixty-one hundredths dollars (\$1,479,157.61), to which sum will be added the value of the undertaking of the Esquimalt Water Works Company;

AND WHEREAS the estimated general revenue for the year 1910 of the present water works system is one hundred and forty thousand dollars (\$140,000.00) to which must be added all such additional revenue as may be expected to accrue by reason of taking over the holdings of the said Esquimalt Water Works Company;

AND WHEREAS the Corporation propose to guarantee the payment of the monies borrowed under the authority of this By-law and the interest thereon.

AND WHEREAS in order to provide a sinking fund it will be necessary to raise the sum of six dollars and fifty-five cents (\$6.55) for every one thousand dollars of debentures or registered debenture stock issued;

AND WHEREAS in anticipation of the alternative issue of registered debenture stock hereby authorized, the Corporation of the City of Victoria has entered into an agreement with the Bank of British North America for the payment through the said Bank in London, England, of the principal monies and interest monies as the same respectively fall due, and for the keeping by an official or officials of the Bank of a register of the holders from time to time of the said registered debenture stock if issued hereunder and of the transfers of the same, and it is desired by this By-law to make regulations with regard to such register and the custody thereof and the making of entries therein and for the fees payable upon transfers;

NOW, THEREFORE, the Municipal Council of the Corporation of the City of Victoria enacts as follows:

1. It shall be lawful for the Water Commissioner of the City of Victoria to tender to the Esquimalt Water Works Company the sum of \$700,000.00 for the lands, premises, waters and the whole undertaking of the said Esquimalt Water Works Company as mentioned in the said Act.

2. In case the said Esquimalt Water Works Company refuse to accept the said offer, it shall be lawful for the said Water Commissioner to proceed to arbitration under the said Acts and Amendment Acts, and to adjust the price which the said Corporation of the City of Victoria shall pay for the said undertaking, according to the provisions of the said Acts.

3. It shall be lawful for the Mayor and Council of the said Corporation and Council of the said Corporation to borrow upon the credit of the said Corporation of the City of Victoria by way of the registered debenture stock, hereinafter mentioned, from any person or persons or body or bodies corporate, who may be willing to advance the same, such sum as may be necessary for such of the following purposes as may be necessary, and for none other, namely:

(a) To pay the amount of the award so found under the provisions of the said Act.

(b) To pay the costs of the said arbitration, being the costs of the said arbitration, and all legal costs, and all clerical costs in con-

nection therewith, so far as the City may be called upon to pay the same.

(d) To pay the expenses connected with the preparation and engraving or lithographing of the registered debenture stock or the debentures and coupons, or any discount or commission, or any other charges incidental to the sale of the said debentures or to the sale of the said debenture stock.

(e) To pay such amount as may be necessary to connect the water system now owned by the said Esquimalt Water Works Company with the system now owned and operated by the said Corporation.

4. The said sum so ascertained, as aforesaid, may be borrowed or raised by the creation and issuance of registered debenture stock, either in dollars currency or its equivalent of pounds sterling (at the rate of \$4.86 2/3 to the pound sterling), to be called "Victoria, B. C. Water Works Debenture Stock."

5. The certificate of the registered debenture stock shall be in the form given in the schedule to this By-law, or as nearly thereto as may be convenient, and shall be in amounts of pounds sterling carrying interest at the rate of four per cent per annum payable half-yearly on the twenty-first day of January and the twenty-first day of June in each year, at the Bank of British North America in the City of London, England, and the principal of the debenture stock shall be repayable at the expiration of fifty years from the day after the date of the final passing of this By-law.

6. The registered debenture stock shall be issued in such amounts, not being less than one pound sterling, as the Mayor and Council of the Corporation of the City of Victoria may from time to time direct, and the said certificates shall, in the first instance, be signed by the Mayor and the Clerk of the Corporation and sealed with the seal of the Corporation and upon any transfer, may be signed by any two officials of the Bank of British North America, London, England, designated and authorized in that behalf of the Court of Directors of said Bank.

7. It shall be lawful for the Mayor and Council of the said Corporation to dispose of the registered debenture stock at a rate below par, and to authorize the City Treasurer to pay out of the sum raised by the sale of the said registered debenture stock all expenses connected with the preparation and printing of this By-law, and of the debenture stock certificates, and all incidental expenditures and English government stamp duties, and any discount, commission or charges incidental to the sale of the said registered debenture stock.

8. A register shall be kept of the debenture stock created under the authority of this By-law by the Chief Cashier of the Bank of British North America in London, or the person for the time being holding that position, under the authority of the Court of Directors of the said Bank, and in such register there shall be inscribed the name and address of the holder of each certificate of registered debenture stock issued hereunder, as well as the original holder, as each transferee thereof, and a duplicate of such register shall be kept by the City Treasurer at the City Hall, Victoria, British Columbia, such duplicate being, however, for the use only of the Corporation and the provisions for the keeping of the same shall in no way affect the rights or interests of the holders of the debenture stock.

9. The said Bank of British North America is hereby empowered to issue out under the hand of any two officers authorized by the said Bank in that behalf, certificates of debenture stock upon transfer to any transferee upon proper proof of transfer in accordance with the provisions of this By-law.

10. There shall be endorsed on each certificate of registered debenture stock the conditions in the schedule hereto from 1 to 19 inclusive, and said conditions shall be binding upon the Corporation of the City of Victoria and upon each and every holder of registered debenture stock issued pursuant to the authority herein contained.

Provisions for the issue of Debentures to Bearer

11. Instead of raising the authorized sum so ascertained as aforesaid by way of registered debenture stock under the foregoing provisions it shall be lawful for the Mayor and Council of the Corporation of the City of Victoria to borrow upon the credit of the said Corporation by way of Bearer debentures hereinafter mentioned, from any person or persons, or body or bodies corporate, who may be willing to advance the same as a loan, the sum authorized by Section 3 of this By-law in currency or sterling money at the rate of \$4.86 2/3 to the one pound sterling, and to cause all such sums so raised or received to be paid into the hands of the Treasurer of the said Corporation with the object and only for the purposes hereinbefore recited.

12. It shall be lawful for the said Mayor and Council to cause any number of debentures to be made, executed and issued for such sums as may be required, as aforesaid, either in currency or sterling money (at the rate of \$4.86 2/3 to the one pound sterling) each of the said debentures being of the amount of one thousand dollars or its sterling equivalent (at the rate aforesaid) with one debenture for an odd amount should such be necessary, and all such debentures shall be sealed with the seal of the said Corporation and signed by the Mayor thereof.

13. It shall be lawful for the said Mayor and Council in their discretion to alternatively cause each of the said debentures to be made, executed and issued for an amount of not less than £100 sterling, and one if necessary for a less sum in sterling money to complete the authorized issue.

14. The said debentures shall bear date of the day after the date of the final passing of this By-law, and shall be payable in fifty years from the said date at such place, either in the Dominion of Canada, Great Britain or the United States of America, as may be designated thereon, and shall have attached to them coupons for the payment of interest and the signatures to the interest coupons may be either written, stamped, printed or lithographed.

15. The said debentures shall bear interest at the rate of four per cent per annum from the date thereof, which interest shall be payable half-yearly at such place, either in the Dominion of Canada, Great Britain or the United States of America, as may be expressed in the debentures and coupons.

16. It shall be lawful for the said Mayor and Council to cause the said debenture and interest coupons, either or both, to be made payable at such place, either in the Dominion of Canada, Great Britain or the United States of America, as may be desired.

17. It shall be lawful for the Mayor and Council of the said Corporation to dispose of the said debentures at a rate below par, and to authorize the Treasurer to pay out of the sum so raised by the sale of the said debentures, all expenses connected with the preparation and lithographing of the debentures and coupons, or any discount or commission or other charges incidental to the sale of the said debentures.

18. So much of the moneys collected for and received by the City Treasurer under the provisions of the Water By-law, 1909, No. 603, or under any by-law in substitution for or amending the same or under any form of revenue from the water works system as shall be sufficient, in addition to the annual interest and sinking fund on existing loans as herein recited, to provide the annual interest on the moneys from time to time borrowed on the security of the registered debenture stock or of the debentures issued hereunder and the annual sinking fund for the payment of the principal moneys due upon the registered debentures issued hereunder, whichever form of security is chosen hereunder, shall be set aside by the City Treasurer and placed to a separate account with the bankers of the Corporation, and thereout shall be paid the interest upon the registered debenture stock, or Bearer debentures, or other moneys borrowed hereunder, as the same shall from time to time require, and the taxes and rates, rentals and charges, and the general revenue of the water works system and the waters of the Corporation, with the guarantee of the Corporation, and said stock is issued subject to the provisions contained in the said By-law as amended hereon.

19. The present and future water works system and property and the waters of the Corporation of the City of Victoria, British Columbia, such application being, however, for the use only of the Corporation and the provisions for the keeping of the same shall in no way affect the rights or interests of the holders of the debenture stock.

20. The Treasurer of the Corporation is hereby instructed and required to set aside out of the water rentals or other available funds of the said water works system upon the 31st day of December, in each year during the whole currency of the debentures or registered debenture stock, the sum of six dollars and fifty-five cents (\$6.55) for every one thousand dollars of debentures or registered debenture stock issued under the authority of this By-law and to place the same to the credit of the said Corporation in the Bank of British North America, or otherwise invest in accordance with the terms and provisions of the Municipal Clauses Act, respecting the investments of sinking funds, as a sinking fund for the repayment of the said debentures or registered debenture stock as and when the same shall fall due and become payable, and if it shall be found that the said water rentals or other available water revenue shall not be sufficient to make up the said amount, the Treasurer is hereby authorized, required and instructed to allocate the said amount or so much thereof as may be found necessary from time to time, out of the general revenues of the Corporation so that in each year the full sum of \$6.55 for every one thousand dollars of debentures or registered debenture stock so issued as aforesaid shall be set apart, deposited or invested as aforesaid for such sinking fund.

21. This By-law may not be altered, repealed or varied without the assent of the Lieutenant-Governor in Council, of the Province of British Columbia, previously had and obtained.

22. This By-law shall take effect after the day on which this By-law shall be finally passed, and may be cited as the "City of Victoria, B. C. Water Works Loan By-law, 1910."

The Schedule in this By-law Referred to.

Conditions to be Endorsed on Registered Stock Certificates

1. The stock is limited to (here insert amount of total issue), or its equivalent in pounds sterling, and may be issued to such persons and on such terms, and either at par, or at a discount, or at a premium.

On the day of 1960 (being the date in said year 1960 corresponding with the date of the day after the final passing of this By-law) the Corporation covenant with the registered holder to pay to the registered holder, for every one pound of the stock the sum of one pound sterling money at the Bank of British North America in London, England.

2. The stock shall carry interest at the rate of four per cent per annum, and the Corporation will pay to the stockholders interest on the respective holdings of stock at the rate of four per cent per annum; such interest will be paid half-yearly on the twenty-first day of January and the twenty-first day of June in each year for the year hereafter, at the Bank of British North America, London, England, the first payment thereof to be made on the twenty-first day of June, 1911.

3. Every original holder of an interest in the stock will be entitled to a certificate bearing the signature of the Mayor of the Corporation and the seal, stating the amount of the stock held by him, and every such certificate shall refer to the said By-law and be in the form, or to the effect following:

Province of British Columbia
City of Victoria
Under authority of Municipal Clauses Act and Amending Acts, and Victoria City Water Works Acts, No.

(Insert amount of total issue) (or its equivalent in pounds sterling), Debenture Stock, 1910, bearing interest at the rate of four per cent per annum payable every twenty-first day of January and twenty-first day of June issued pursuant to "The Water Works Loan By-law, 1910," No. of the Corporation of the City of Victoria.

(The stock is redeemable at par on the day of 1960 (giving the date in the year 1960, corresponding with the date of the day after the final passing of this By-law), for which provision is made by a sinking fund.)

This is to certify that of the above mentioned stock, which stock is constituted and secured by law of the Corporation of the City of Victoria, British Columbia, finally passed on the day of 1911, and numbered

charging the water works system, and property, and the taxes and rates, rentals and charges, and the general revenue of the water works system and the waters of the Corporation, with the guarantee of the Corporation, and said stock is issued subject to the provisions contained in the said By-law as amended hereon.

Given under the Corporate seal of the Corporation of the City of Victoria this day of 1911.

N.B.—This certificate must be surrendered before any transfer of the whole or any part of the stock comprised in it can be registered. No fraction of one pound can be transferred.

4. Save where herein otherwise provided the Corporation will recognize the registered holder of any stock, his executors or administrators as the absolute owner thereof, and all persons may act accordingly, and the Corporation shall not, save as herein otherwise provided, and except as ordered by a Court of competent jurisdiction, or as by Statute required, be bound to take notice of any trust or equity affecting the ownership of the stock, or the rights incident thereto, and the receipt of such registered holder, his executors or administrators for any moneys payable under the redemption of the same, shall be a good discharge to the Corporation.

5. In case of the death of any of the joint holders of any registered stock, the survivor will be the only person recognized by the Corporation as having any title to, or interest in, such stock.

6. A body corporate may be registered as the holder or one of the holders or joint holders of stock.

7. Every holder of registered stock will be entitled to transfer the same, or any part thereof not involving a fraction of one pound, by instrument in writing in the usual common form.

8. Every instrument of transfer must be signed by both the Transferor and the Transferee, and the Transferee shall be deemed to remain the owner of such stock until the name of the Transferee is entered in the register hereinafter mentioned in respect hereof.

9. Every instrument of transfer must be left at the Bank of British North America in the City of London, England, for registration, accompanied by the certificate of the stock to be transferred, and such other evidence as the Bank may require to prove the title of the Transferor, or his right to transfer the stock, and thereupon the Transferee shall be deemed to have acquired the stock free from any equity, set-off or cross-claim of the Corporation, or the said Bank as its agent, against the Transferor.

10. All instruments of transfer and the stock certificate which shall be registered will be retained by the said Bank, and a new certificate or certificates will be handed out to the Transferee by the Bank of British North America in London, as authorized in the above by-law signed by the proper officials of said Bank.

11. A fee of not exceeding two shillings and sixpence will be charged for the registration of each transfer, and must, if required by the said

Bank, be paid before the registration of the transfer.

12. No transfer will be registered during the fourteen days immediately preceding the twenty-first day of January or twenty-first day of June in each year.

13. The Executors and Administrators of a deceased holder of registered stock (not being one of several joint holders) shall be the only persons recognized by the Corporation as having any title to such stock.

14. Any person becoming entitled to registered stock in consequence of the death or bankruptcy of any holder of such stock, upon producing such evidence that he sustains the character in respect to which he proposes to act under this condition, or of his title, as the said Bank shall think sufficient, may himself be registered as the holder of such stock, or, subject to the preceding conditions as to transfer, may transfer such stock.

15. The said Bank shall be at liberty to retain the interest payable upon any share of registered stock in respect of which any person under the last preceding condition is entitled to transfer until such person shall be recognized or have duly transferred the same.

On the back or fold of the stock certificate the following shall be printed:

No. of certificate.
Name and address of Owner.
Date of transfer.
Name and address of Transferee.
No. in Register.

16. The interest upon any registered stock may be paid by registered stock through the post to the registered address of the holder, or, in case of joint holders, to the registered address of that one of the joint holders who is first named on the Register in respect of such stock. Every such cheque shall be made payable to the order of the person to whom it is sent, and payment of the cheque shall be a satisfaction of the interest.

17. The receipt of any registered holder of any stock shall be as effective a discharge to the Corporation as if the person were the sole registered holder.

18. If any certificate be worn out or defaced, then upon production thereof to the Corporation the same may be cancelled and a new certificate be issued in lieu thereof. In case of loss, then upon proof to the satisfaction of the Corporation, or, on default of any proof, on such indemnity, as the Corporation deem adequate being given, a new certificate may be given. The fee for a new certificate shall be one dollar and also all English stamp duties on the further certificate.

19. Any change of name or address on the part of any registered holder shall forthwith be notified to the Bank of British North America in London, England, and upon the said Bank being satisfied, the Register shall be altered accordingly.

Interpretation Clause

20. "Stock," "Debenture Stock," "Registered Debenture Stock," means the issue authorized by the City of Victoria, B. C. Water Works Loan By-law, 1910, No. of the Corporation of the City of Victoria, British Columbia.

Words denoting the male include the female, and the singular includes the plural.

"Register" means the register at the Bank of British North America in London, authorized by the above By-law.

"Corporation" means the Corporation of the City of Victoria, British Columbia.

"Registration" is complete only when the required particulars are entered in the Register.

"Share of Stock" or "Share of Registered Stock" means the designated amount of the stock named in the stock certificate dealt with (not being less than £1).

"Bearer" means the lawful owner having possession of and producing the debenture.

"The Interest" means the half-yearly interest of four per cent per annum payable by the Corporation of the City of Victoria in respect of the stock issued under the authority of the above By-law.

Passed the Municipal Council the 7th day of November, 1910.

TAKE NOTICE that the above is a true copy of the proposed by-law, upon which the vote of the municipality will be taken in the Building known as Nos. 1417 to 1419 Broad Street (Meston's Carriage Works) on Thursday, the 24th day of November, 1910, that the polls will be kept open between the hours of 9 o'clock a.m. and 7 o'clock p.m., and that W. W. Northcott has been appointed the Returning Officer of the said vote.

WELLINGTON J. DOWLER, C.M.C.
City Clerk's Office, Victoria, B.C., November 10th, 1910.

body or bodies corporate, who may be willing to advance the same as a loan, a sum of money not exceeding in the whole the sum of \$50,000 gross, currency or sterling money, at the rate of \$4.86 2/3 to the one pound sterling, and to cause all such sums so raised or received to be paid into the hands of the Treasurer of the said Corporation for the purposes and with the object hereinbefore recited.

2. It shall be lawful for the said Mayor and Council to cause any number of debentures to be made, executed and issued for such sums as may be required, as aforesaid, either in currency or sterling money at the rate aforesaid, each of the said debentures being of the amount of \$1,000, and all such debentures, when so sealed with the seal of the said Corporation and signed by the Mayor thereof.

It shall be lawful for the said Mayor and Council in their discretion to alternatively cause each of the said debentures to be made, executed and issued for an amount of \$100 sterling and one if necessary for a less sum in sterling money to complete the authorized issue.

3. The said debentures shall bear date of the day after the final passing of this By-law, and shall be made payable in twenty-five years from said date, at such place, either in the Dominion of Canada, Great Britain, or the United States of America, as may be designated thereon, and shall have attached to them coupons for the payment of interest, and the signature of the interest coupons may be either written, stamped, printed, lithographed or engraved.

4. The said debentures shall bear interest at the rate of four per cent per annum from the date thereof, which interest shall be payable half-yearly, on the 21st day of January and 21st day of July, at such place in the Dominion of Canada, Great Britain, or the United States of America, as may be expressed in the debenture and coupon.

5. It shall be lawful for the said Mayor and Council to cause the said debentures to be made, executed and issued at a rate below par, and to authorize the Treasurer to pay out of the sums so raised by the sale of the said debentures, all expenses connected with the preparation and engraving or lithographing of the debentures and coupons, or any discount or commission or other charges incidental to the sale of the said debentures.

6. It deemed advisable by the Mayor and Council there shall, in the said debentures, be inserted a clause conferring the right upon any future consolidation of the debenture indebtedness of the City to substitute debentures of such consolidation secured upon the credit of the City generally.

Such consolidated debentures shall contain the like covenants, conditions and restrictions as are contained in the debentures, issued in pursuance of this By-law, and in each debenture for such substitution may be inserted.

7. For the purpose of raising annually the required sum for the payment of the interest on the said debentures during their currency, there shall be raised annually the sum of \$2,000, and for the payment off of the debt at maturity there shall be raised annually the sum of \$1,200.00, and both said sums shall be raised annually by a rate sufficient therefor on all rateable land and improvements or real property in the City of Victoria during the continuance of the said debentures, or any of them.

8. This By-law shall, before the final passing thereof, receive the assent of the electors of the said Corporation in the manner provided for in the Municipal Clauses Act, and shall take effect on the day after the final passing thereof.

9. This By-law may be cited as the "50,000 Fire Protection By-law, 1910."

Passed the Municipal Council on the 7th day of November, 1910.

TAKE NOTICE that the above is a true copy of the proposed By-law, upon which the vote of the municipality will be taken in the Building known as Nos. 1417 to 1419 Broad Street (Meston's Carriage Works) on Thursday, the 24th day of November, 1910, that the polls will be kept open between the hours of 9 o'clock a.m. and 7 o'clock p.m., and that W. W. Northcott has been appointed the Returning Officer of the said vote.

WELLINGTON J. DOWLER, C.M.C.
City Clerk's Office, Victoria, B. C., November 10th, 1910.

Civic Notice

The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable to extend the City Engineer and City Assessor's report, in regard to such expatriation.

1. To grade, drain and pave with street with asphalt, and to construct curbs and gutters on both sides of said street and provide lateral connections.

2. To lay underground conduits and place cluster lights on View street, from Government street to Douglas street (including maintenance).

3. To lay underground conduits and place cluster lights on View street, from Douglas street to Cook street (including maintenance).

4. That the said works shall be carried out in accordance with the provisions of the Local Improvement General By-law, 1910, and amendments thereto, and the City Engineer and City Assessor having reported to the Council in accordance with the provisions of section 4 of said By-law, upon each and every of said works of local improvement giving statements showing the amounts estimated to be chargeable against the various portions of real property to be benefited by the said works and the reports of the City Engineer and City Assessor as aforesaid having been adopted by the Council.

NOTICE IS HEREBY GIVEN that the said reports are open for inspection at the office of the City Assessor, City Hall, Douglas street, and that unless a petition against any proposed work of local improvement is presented, signed by a majority of the owners of the land or real property to be assessed for such improvement, and representing at least one-half of the value of the said land or real property, to the Council within fifteen days from the date of the first publication of this notice, the Council will proceed with the proposed improvement upon such terms

and conditions as to the payment of the cost of such improvement as the Council may by-law in that behalf regulate and, date, minute.

WELLINGTON J. DOWLER, C.M.C.
City Clerk's Office, Victoria, B. C., November 10th, 1910.

NOTICE

Take notice that I, S. Caffin, intend to apply to the Board of License Commissioners of the City of Victoria, B. C., at the next sitting thereof, for a transfer of the liquor license held by me in the hotel known as the Mayne Island Hotel, situated at Yates street and Waddington Alley, Victoria, B. C., to James Morgan. Dated this 6th day of November, 1910.

S. CAFFIN,
By his Attorney in Fact, Jno. F. Dickson, Applicant.

Municipal Notice!

The City of Victoria, B. C., Waterworks Loan By-Law, 1910;

The \$50,000 Fire Protection By-Law, 1910;

The Permanent Sidewalk and General Construction (No. 24) Local Improvement Assessment By-Law, 1910.

I hereby give notice that each of the electors of the Municipality of the City of Victoria as are entitled to vote on a by-law for raising money upon the credit of the municipality, are requested to attend at the polling place, known as Nos. 1417 to 1419 Broad street (Messrs. Carriage Works), in the City of Victoria, on Thursday, the 24th day of November, 1910, from 9 a. m. to 1 p. m., and to record their votes for or against the passage of the City of Victoria, B. C., Waterworks Loan By-Law, 1910; the \$50,000 Fire Protection By-Law, 1910; the Permanent Sidewalk and General Construction (No. 24) Local Improvement Assessment By-Law, 1910, copies of which by-laws are published in the Victoria Daily Times, and copies whereof are posted up at the City Hall and in each Ward and at the polling place.

WM. W. NORTHCOFF, Returning Officer.

CIVIC NOTICE

The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable

To light Yates street from Government street to Douglas street by means of electric light poles bearing branch lights and construct the necessary conduits for carrying wires underground (including maintenance).
And that the said works shall be carried out in accordance with the provisions of the Local Improvement General By-Law and amendments thereto, and the City Treasurer and City Assessor having reported to the Council in accordance with the provisions of section 4 of said by-law, upon each and every of said works of local improvement giving statements showing the amounts estimated to be chargeable in each case against the various portions of real property to be benefited by the said works and the reports of the City Engineer and City Assessor as aforesaid having been adopted by the Council.

NOTICE IS HEREBY GIVEN that the said reports are open for inspection at the office of the City Assessor, City Hall, Douglas street, and that unless a petition against any proposed work of local improvement is presented, signed by a majority of the owners of the land or real property to be assessed for such improvement, and representing at least one-half of the value of the said land or real property, is presented to the Council within 15 days from the date of the first publication of this notice, the Council will proceed with the proposed improvement upon such terms and conditions as to the payment of the cost of such improvement as the Council may by by-law in that behalf regulate and determine.

WELLINGTON J. DOWLER, C. M. C.
City Clerk's Office, Victoria, B. C., November 15th, 1910.

VANCOUVER CADETS

MAY GO TO LONDON

Proposal to Send High School Corps to Coronation Ceremonies

Vancouver, Nov. 18.—If satisfactory arrangements can be made and the military authorities declare themselves in favor, it is very likely that the local high school cadet corps will take a trip to London to attend the coronation ceremonies next June. No definite decision has been reached, but to judge from indications, residents of the city as well as the parents of the cadets are very much in favor of the trip. Recently a band of fourteen pieces was equipped and added to the corps of the Dominion would take an active part in a coronation ceremony in the capital of the empire.

The plan was originated by Capt. R. N. Davey, who will at once communicate with the military authorities in Ottawa, asking permission to make the trip. The matter will also be brought before the board of school trustees, who will assist the officers of the corps in an endeavor to secure a grant from the authorities. The efficiency of the corps and the perfection of equipment is largely due to the generosity and support of the citizens of the city.

The local high school cadet corps was organized two years ago. Over \$2,000 has since that time been spent for equipment, including the recent expenditure of \$600 for band equipment.

HAD NARROW ESCAPE

Vancouver, Nov. 18.—E. H. Lea, a member of Herbert S. Muesel's survey party, which had for its object the location of the boundary line, inland from the Taku Arm, is visiting Vancouver. Mr. Lea had a most thrilling story to relate of an accident which befell him while with this party in the north. The party were near the summit of the range from which the Taku river flows, and at least 22 miles up the glacier, when Mr. Lea in crossing a snow bridge felt himself falling. He actually fell 65 feet before his body became tightly wedged between the walls of the crevasse and then he lost consciousness. Finally he was hauled from what seemed certain death by his companions, and when he arrived at the surface it was found that he had broken nearly every rib in his body. It was five weeks before he was able to leave the mountains to once more enter civilization.

DEVELOPMENT OF LUCKY JIM MINE

Six Drill Air Compressor to Be Installed—Concentration Plant Proposed

Nelson, Nov. 18.—"A six-drill Canadian Rand air compressor is now at Nakusp awaiting shipment to the Lucky Jim mine where it will be used to develop the No. 6 tunnel," said G. Weaver Loper, managing director of the Lucky Jim Mines, Limited.

"This tunnel is at present 158 feet in. We have been working three shifts of men for some time. On the arrival of the new compressor and air drills we expect to drive in at the rate of seven feet per day, and will continue to work three shifts. The compressor will be operated by water power. Thirty-six men are at present at work on the mine."

"It was estimated by an engineer who inspected the property a short time ago that there is \$2,000,000 worth of ore blocked out in the mine. This consists of the untouched deposits opened up in No. 5 and running upwards to No. 4 and of the concentrating ore in the upper workings from which we have shipped the smelting ore."

"This winter a special force of men will be put on to further develop these upper workings, and it is likely that we shall erect a concentrating mill in the spring. It is also probable that we shall ship some silver-lead-zinc ore during the winter via Three Forks."

"The values in No. 5 tunnel," said Mr. Loper, "run about 52 per cent zinc, 25 per cent lead, and from 48 to 50 ounces of silver to the ton. The zinc ore body in the No. 5 workings is 91 feet wide and we struck the silver-lead ore about the centre of the vein. There is a crosscut and a big winze in the No. 5 tunnel; the former about 800 feet from the portal and the latter about 200 feet in."

J. S. Reid, one of the owners of the Gordon group of mineral claims on the upper part of Wolf creek, in the Skeena creek camp, the other day exhibited a remarkable nugget he has just brought in. The small piece of ore has the general appearance of oxide, but is studded with free milling gold, on all of its surfaces. According to all the experienced miners who have examined it, it must run hundreds of dollars a ton, perhaps well up toward \$1,000. It was taken at a point about 12 feet in on the lead.

ENGINE DERAILED

Vancouver, Nov. 18.—Two men were injured and two escaped in the first derailment that took place on the newly-opened Chilliwack line of the British Columbia Electric Railway Company yesterday. J. Aldcroft, conductor, was badly scalded on the legs, while Moore, the brakeman, had his arm broken. The engineer, Owen J. Fuller, was bruised but not seriously, while the fireman was thrown clear of the wreck.

The accident took place about five miles out of Chilliwack. A work train was going at full speed to get to a switch to allow the passenger car to pass, when the engine jumped the track. The locomotive went on one side and struck a telegraph pole, the tender taking the other side. All four men were riding in the cab of the engine at the time, and when the engine rolled into the ditch, Aldcroft and Moore were underneath. The escaping steam scalded Aldcroft, who saved his life by reaching the valve and shutting off the steam. The fireman soon got free, and ran to flag the passenger car, which arrived shortly afterward. The passengers on board were taken to Chilliwack in vehicles.

The Evening Chit-Chat

BY RUTH CAMERON

Why do men, as a rule, have clearer and better skins than women? I have often heard that question propounded, but up to yesterday never heard any answer except whimsical comments on the cruelty of the fate that arranged matters that way. Yesterday it was asked in the presence of a doctor man, who startled us by answering:

"Probably because they shave." "What has that got to do with it?" we retorted.

"Just that a man who shaves keeps his skin in good condition by giving it a thorough massage every day with a very fine soap and a brush." "But why couldn't women do that?" "I suppose they could if they wanted to."

"And would it really improve their skins?" "It most certainly would. If any woman, who has a rough or pimply or sallow skin, would get a brush and a stick of shaving soap or any other soap as pure, and would cleanse and massage her face every morning just as thoroughly as her brother does when he shaves, I'll guarantee she would have an infinitely better skin in a short time."

I am not by any means a health and beauty expert.

I don't pretend to be able to teach my readers how to be beautiful though homely, but every once in awhile I get a letter from "Edith" or "Violet" or "Amaryllis" or "Palecheeks" on this most important of subjects.

And the most common question is a request for a receipt for a skin lotion that will make a homely, sallow skin clear and attractive.

Of course, I can't give that. If I could, I should have a fortune ready made to my hand.

No one can give that receipt no matter what allying advertisers, who know the feminine public's longing to be fooled on this question, may say.

But if any girl really wants an attractive skin enough to work for it, why not try my doctor friend's prescription for a few months?

And while I am about it here are one or two more beauty hints.

The red corpuscles in the blood are increased by sleep more than by anything else. In other words the best way to improve your color is to get an extra hour or two of sleep every night. Be sure that you have plenty of fresh air in your chamber—for sleep needs oxygen to help it in this process—and every moment that you put in in this way will add to your red corpuscles.

Above all things, remember that the best way to improve the skin is to improve the general health—especially the condition of the bowels and kidneys, which in their functions are closely related to the skin.

Drinking plenty of water and keeping the bowels in good order will do infinitely more to give you a clear skin than the most exquisite and expensive skin lotion that was ever invented to coax the dollars out of feminine handbags.

Drinking plenty of water and keeping the bowels in good order will do infinitely more to give you a clear skin than the most exquisite and expensive skin lotion that was ever invented to coax the dollars out of feminine handbags.

SOCIAL AND PERSONAL

F. R. Pemberton left last night to spend the week-end on the mainland.

J. F. Renfree, of this city, has returned from a trip to Nanaimo.

Mrs. William Ross, Quadra street, is spending the winter in Pasadena.

Andrew Gray went over to the Terminal city last night on a business trip.

Mrs. and Miss Hurst, Nanaimo, are spending a few days in this city visiting friends.

Mrs. L. E. Erb leaves to-day via the Northern Pacific for Southern California.

Mrs. F. Clarke and Miss Clarke have returned from a visit with friends in Seattle.

Mrs. Shalloss was at home to a number of friends yesterday at the tea hour.

J. A. Thomson, Dominion Inspector of boilers, left yesterday on a visit to Pullman, Wash.

Mr. and Mrs. John Piercy, Elk Lake arrived in town yesterday and are guests at the Balmoral hotel.

Mr. and Mrs. Tilley, Niagara street, entertained a few friends very pleasantly on Wednesday evening.

Mrs. C. A. Schooley, Vancouver, entertained at a luncheon in honor of Mrs. J. S. Gordon, Victoria, on Wednesday.

Mrs. E. Copeland and son left yesterday via the Northern Pacific and the steamship Lake Champlain on a six months' visit to England.

J. S. Crawford, Dominion Immigration agent at Kansas City, Mo., is paying a visit to his daughter, Mrs. T. E. Holling, Metropolitan church parsonage.

Invitations are out for the marriage of Miss Edith Holland, daughter of Mr. W. H. Holland, Toronto, and Mr. Thomas Keefer, Jr., Ottawa, which will take place on November 23.

The Daughters of Scotland have arranged for a dance to be held on Wednesday evening next in the Broad street hall. At the close refreshments will be served.

Mrs. Bamfylde Daniell was at home to a number of friends yesterday afternoon at the tea hour in her studio, which was gay with autumn flowers, and the new pictures which this clever artist is at work on were viewed with interest.

On Thursday evening at Nanaimo the marriage of Miss Margaret A. Allard, a popular young lady of the Coal city, and Mr. Richard W. Perry, manager of the Great West Permanent Loan Co., of this city, was solemnized in St. John's church.

Miss Crocker, the young English artist whose pictures were so much admired at the fall exhibition of the Vancouver Island Arts Club, has been painting a great many pretty bits of local scenery which will be on exhibition in Somers' art gallery on Tuesday, Wednesday and Thursday of next week. Miss Crocker, who is the guest of her sister at Oak Bay, has in mind in the near future a tour of Japan and India, after which she will meet some friends in Rome. She is a famous traveller and quite at home in the holy city, where she has spent a number of years. Among the pictures which Miss Crocker has brought with her to Victoria are some beautiful Tyrolean scenes, of which she makes a specialty.

Miss Janie Newington, who has many friends here, was married in Prince Rupert on November 8 to Mr. McInnes. They are now on a honeymoon trip to Boston and New York.

Mrs. J. S. Gordon, Linden avenue, who is visiting in Vancouver, was guest of honor at a smart luncheon given on Thursday by Mrs. W. C. Brown, at her apartments in the Florence court. The table, which was laid for eight guests, was made most attractive with an effective arrangement of violets and lilies of the valley.

Mrs. Biggerstaff Wilson was hostess at a very smart tea on Thursday afternoon at which a great number of fashionable people were present. Her handsome rooms and tea-table carried out a unique and artistic floral scheme, and the hostess welcomed her guests very charmingly.

The dance given last evening by the Boys' Hockey Club of Victoria college at the home of their president, F. G. C. Wood, Cook street, was a most enjoyable affair. About thirty were present and Dresser's orchestra furnished a splendid programme of dance music. Mrs. W. H. Wood, the president's mother, made a kindly, gracious hostess and chaperone, and was assisted by Mrs. Willis, wife of the principal of Victoria college, and Mrs. Edna Henry, a popular member of the teaching staff. The rooms were decorated throughout in red and white carnations and college pennants, while a number of hockey sticks which were in evidence, gave local color to the whole. The dance programme, too, was in red and white, carrying out the college colors, and from start to finish the evening was a most enjoyable and sociable one.

Grand concert Victoria theatre, Sunday night, November 20th, by the Victoria Concert Society, under the direction of THOS. W. PALMER, Hon. Sec'y.

VOILE GOWN.

For the woman fond of black and white here is a pretty model in black chiffon yoke, trimmed with the popular foot band in black and white foulard. Foulard is also used on the bodice in a semi-jacket effect and deep cuffs on sleeves.

Trefousse GLOVES

"MY LADY'S" Glove

"TREFOUSSE" Gloves are known the world over as the most stylish and exquisite creations manufactured.

The name "TREFOUSSE" in a Glove is a guarantee of fit and durability.

Shades and Colors for Street and Dress occasions to harmonize.

NOTICE

Notice is hereby given that I intend to apply at the next sitting of the Board of License Commissioners of the City of Victoria for a transfer of the liquor license now in the name of John Berryman, in respect of the Teutonia Saloon, situated at No. 128 Government street, Victoria, B. C., to Charles P. Le Lievre. Dated this 11th day of October, 1910. ELIZABETH BERRYMAN. Executrix of the Estate of John Berryman, Deceased.

Homes

DALLAS ROAD—Double corner, 100x120 feet, with large eight-room house, fine lawn, kitchen, garden and tennis court. Price \$7,500. With the improvements projected on the Dallas road, this property should double in value in the near future. We predict that the Dallas road will be one of the most noted marine driveways in the World.

HILLSIDE AVENUE—55x130, six-room house, modern conveniences. Price \$3,500.

PANDORA AVENUE—Fine modern nine-room house, every modern convenience, full basement with laundry and gas stove, large reception hall, garage and summer house. A beautiful home with a good speculative value. Price \$5,400.
